Meets on the fourth Thursday at 7:30 p.m. in the Council on Aging Room in the Town Hall.

Recreation Committee

Meets on the second Thursday at 7:30 p.m. in the Town Hall in Conference Room 122.

Historical Commission

Meets on the fourth Monday (except July, August & December) at 7:30 p.m. at Lewis House.

Computer Study Committee

Meets on the first and third Wednesday at 7:30 p.m. in Room 208.

Meetings Subject to Change

GENERAL GOVERNMENT

BOARD OF SELECTMEN

The year 1984 was indicative of the new era which we are just entering into. One in which the profile of Walpole is changing. We are witnessing a building boom, which has not yet affected a population explosion, but to date is indicating a realignment of categories. The number of elderly and middle age are increasing, yet, the school age population is holding constant. The average value of new buildings is well above the average for this era, and condominiums, apartments and health care continuums are becoming popular.

The municipal government is experiencing its share of change. This year we were sorry to lose some of our administrative staff to competition and retirement, but were fortunate to have some very competent replacements. Jim Merriam did an excellent job in guiding us thru these changes with his six years experience as Assistant Town Administrator, acting first as Acting Town Administrator, ultimately being rewarded with the appointment of Town Administrator in May. We obtained some very capable people in John Glossa, Town Engineer and Anthony Celli as D.P.W. Director, who replaced Paul Keane who had these positions in a dual role, George Young replacing Warren Bushway who retired as Town Sanitarian, and David Conley replacing Bill Munroe as Building Inspector. Mr Merriam rounded out the new team by bringing on board David Ramsay as his replacement as Assistant Town Administrator and hired a Planning Engineer.

This year we relocated the Police Department back to the old Town Hall, its original home for many years, up to the 1950's. This was phase two of a three phase expansion program, first relocating the Town Hall to the old Stone School, then the Police to bigger facilities and finally the revitalization and expansion of the Fire Station to modernize its operation.

This year the townspeople have patiently accepted a major detour in the center of Town, as well as extensive sewer construction throughout the Town. These programs enhanced our flood control and sewer collection systems. We have yet to experience the long overdue state bridge reconstruction program. Our efforts to have input as to the aesthetics of the bridges in Walpole is slowly being accepted. We await the overdue Route One reconstruction thru Walpole, by the State, which will increase the safety factor for vehicular traffic but also

keep an eye on any side effects on flood control. Next year should bring renovation to the center of Town, thanks to the efforts of the Downtown Revitalization Committee, and also a long overdue traffic control light for the Heartland Plaza by the owners.

This year the Board of Selectmen have been successful in negotiating a policy on the Sullivan Stadium events with the Town of Foxboro, which will be financially beneficial to the Town and local residents.

The Cable T.V. contract has been finalized and installation to users is underway. The Computer Study Committee's efforts are coming to fruition, and now we have initiated a Fiscal & Monetary Review Committee to guide us in further reorganization of the Town's monetary structure.

The Board of Selectmen are personally reviewing the Fire Department structure and its role in the future. We are directing the relocation and administering of the ambulance service from the Police to the Fire in a gradual transition. We were pleased to promote on firefighter to Lieutenant and two call men to permanent. We are proposing to the Town the addition of four new permanent firemen to increase our ability of adequate fire response and also man the ambulance.

The above will ultimately increase the Police Department's ability to respond to Police matters, by relieving them of ambulance duties without increasing its staff. We are pleased to appoint our first female police officer this year after some procedural snafu with the Civil Service. We have made three new appointments to fill vacancies and promoted one private to sergeant due to retirements. The Police Chief and Civil Defense have initiated a drive to increase our Auxiliary Police staff, which will enhance our Police public services and Civil Defense and medical alert services. We are currently negotiating for a Civilian Dispatcher for one of the Police shifts.

The Board of Selectmen have delegated initiation of the State mandated "Right to Know Law" to the Health Agent, and have appointed a "Handicapped Access Review Committee" to review that situation within the Town of Walpole.

Thru efforts by the Town Administrator we have adopted a semi self insurance program to address the problem of sky rocketing insurance costs.

In summary, it has been a busy and fruitful year and the Board would like to again thank the townspeople for their patience and understanding with our massive road constructions and

the deletion of a Fourth of July Celebration for obvious safety reasons this year and look forward to a prosperous year ahead.

FLOOD CONTROL CONSTRUCTION, SUMMER 1984

TOWN ADMINISTRATOR

It is indeed an honor and a privilege to submit my first annual report as Town Administrator. Upon the resignation of James E. Mello, on December 31st, I accepted the position of Interim Town Administrator. Mr. Mello returned to his native state of Missouri, as Town Manager of Ferguson, located in metropolitan St. Louis. Having worked with Jim Mello during his four year tenure in Walpole, I know that the community appreciated his many accomplishments and I truly wish him great success in his career objectives.

During the first three months of the year, my major focus was the presentation and defense of the FY 85 Operating and Capital Budgets, with the culmination occurring at the Spring Annual Town Meeting.

In April, the Town Meeting voted unanimously for a combined Municipal and School Computer System, accepting the report and recommendation of the Computer Study Committee, chaired by William Hamilton. The combined Computer System has provided the Municipal and School Departments with the most advanced hardware and software, the efficiency of cost sharing by reducing two maintenance and operating systems into one, and an improved relationship between the School and Municipal Departments.

In early May, the Board of Selectmen appointed me as Town Administrator. I am extremely grateful to the Board of Selectmen for their confidence in me. I have pledged myself to the faithful performance of the duties of the Office of Town Administrator and am committed to this pledge. My single goal, during my tenure, is to provide the citizens of Walpole with a responsive local government to their needs as defined by the policy directives of the Board of Selectmen and funding allocations of Town Meeting.

1984 was a year of unprecedented growth for Walpole. With a booming economy, private developments in the form of commercial construction, rehabilitation and demolition of several buildings in the center are changing the scene in the East Main Street/Main Street triangle. In addition, single family homes and condominiums were constructed in large numbers, with construction occurring in all sections of the community. One large scale project approved by the October Annual Town Meeting is for a 25 million dollar life care continuum to be built jointly by the Neponset Valley Health System and Hillhaven Corporation, on a parcel of land between Main Street and Willett Pond. However, this cannot compare to the magnitude of the public works projects undertaken this year.

The eight million dollar EPA Sewer Project commenced with a ground breaking on West Street in April. By the end of the year, almost all

of the interceptor pipe for Contract 1, starting at the Norwood line to Lewis Avenue was installed. Contract 4 laterals in Norfolk and West Streets was completed and Contract 7, which was rehabilitation of existing pipe, was completed. In all, approximately fifty percent of the entire project was completed by year's end. A second large scale project undertaken this year was the Soil Conservation Service and Town of Walpole's Diamond Brook Culvert. This project started at the East Street and Main Street intersection causing a huge detour for the entire summer. The one million dollar project disrupted traffic and business in the center, caused cancellation of the annual Night Before the 4th celebration but will bring much needed relief to the area from severe flooding.

In the area of budgeting, most of our costs are controllable and have stayed within our fiscal constraints. We were able, in the October Town Meeting, to appropriate an additional sum of money to proceed with the addition and renovations for the Central Fire Station, since our Police Department finally moved from the Central Police/Fire Station in April, after completing renovations to the Old Town Hall for a second century of service. Costs that have been difficult to control over the past several years were the same in 1984: Group Health Insurance, Norfolk County Retirement Assessments, and Solid Waste Collection and Disposal. In the area of Group Health, the Board of Selectmen, upon the advice of the Insurance Advisory Committee, adopted the cost plus program with a Claims Monitoring Service in order to combat the annual spiralling increases demanded by Blue Cross/Blue Shield. Norfolk County Retirement assessments are a function of payroll and very few options exist. Solid Waste costs will be one of the challenges for this Administration in 1985.

In the area of labor relations, all municipal contracts are current. The Library contract, with the help of a mediator, was settled in November, and presently awaits funding by Town Meeting next January.

In the area of personnel, I had the duty to fill several key positions this year. Because of my promotion, the position of Assistant Town Administrator became vacant. Mr. David Ramsay was appointed in September to assume this position. Mr. Ramsay brings a graduate degree in Public Administration from Suffolk University and six years of experience in local government to Walpole, where he has already demonstrated his abilities as a professional. With the retirement of Warren Bushway as Health Agent after ten years of faithful service, I appointed Mr. George Young to the position. Mr. Young, a native of Walpole, brings a graduate degree and five years of experience in the Town of Framingham to Walpole. I wish to thank the Board of Health for their assistance in the appointment

of Mr. Young. Both Mr. Young and the Board of Health await their challenge to protect the environment, as the issues of health rise on the priority list annually. This was most evident in 1984, when the Massachusetts Legislature passed the Right to Know Law, and Town Meeting unanimously passed its first Aquifer By Law & Overlay District to protect School Meadow Brook and the Town's Washington Well Field. The Town's Central Fuel Depot, which caused concern about future leaking into the well field was removed in July and all Town vehicles now purchase from private fuel stations.

In July, D.P.W. Director/Town Engineer Paul Keane accepted a position in an Engineering firm. I wish to thank the Screening Committee consisting of Chairman of the Board of Selectmen, Clement Boragine, Town Moderator Robert Boyd, Personnel Board member Daniel Bielenen and former Planning Board member William Haigh, who assisted me with the hiring process. After an unsuccessful attempt to fill the combined position, the position were advertised separately. Mr. John Glossa, Assistant Town

Engineer from Norwood was appointed as Town Engineer in November. In December, Mr. Anthony Celli, Public Works Engineer from the Town of Concord was appointed Director of Public Works.

In October, Mr. William Munroe, Building Inspector, resigned to return to the Town of Salem. Deputy Building Inspector, David Conley was appointed as Building Inspector/Zoning Enforcement Officer. Mr. Conley also served as one of the original full time firefighters for the past ten years and brings that most valuable public safety experience with him in his new position.

In closing, I wish to thank the Board of Selectmen for their leadership, guidance and confidence expressed in me during this past year. I will do my utmost in 1985 to maintain this confidence by the Board of Selectmen and the other Boards, Committees, Town Employees and the residents of Walpole. As always, I express my special gratitude to my personal staff for their truly dedicated service to the community during this past year.

TOWN COUNSEL

Most of the Town Counsel's work has centered around litigation, opinions, approving contracts as to form, and zoning issues. Also included were easements and Appellate Tax Board matters. There are presently over 30 active cases involving the Town, and we have tried several and have reached a favorable decision in many. There has been no adverse decision to the Town since I have been Town Counsel.

During the past year there has been very little new litigation. The Board of Selectmen and

Town Administrator have greatly assisted in a preventative law program.

We extend our appreciation to the Board of Selectmen for their confidence in retaining this firm, and appreciate the assistance and cooperation received on all matters from the Board, Town Meeting, Town Administrator, Department Heads, Boards, Committees, and other Town personnel. We look forward to working with the members of the Town government in the future.

Youngsters take part in the Walpole Annual Fishing Derby.

BOARD OF APPEALS

The Board of Appeals acts under the authority given it by Chapter 40A of the General Laws of the Commonwealth of Massachusetts as well as the zoning By-Laws of the Town of Walpole.

The Board of Appeals has jurisdiction over appeals from rulings of administrative officials of the Town made under the Zoning By-Laws. In addition, The Board of Appeals has authority with respect to particular premises to authorize a variance from the terms of the applicable Zoning By-Laws in certain instances. All applications for Site Plan Approval are heard by the Board of Appeals.

The Board holds public hearings for all applicants and acts only after the public hearings are closed. The Board is responsible for publishing notice of the public hearing in the newspaper. A copy of the notice is sent by mail to the petitioners and to the owners of all property abutting the land and owners of all land next adjoining the land of said abutters within 300 feet of property line and owners of land directly opposite on any public or private street or way. A copy of the notice is also sent to various departments and boards of the Town as appropriate.

During 1984 the Board heard 97 cases which resulted in the following decisions:

- 16 Site Plan Approvals granted
- 2 Site Plan Approvals denied
- 4 Site Plan Approvals amended
- 34 Special Permits granted
- 4 Special Permits denied
- 21 Variances granted
- 15 Variances denied

After public hearings, 14 applications were withdrawn. Three applicants appeared before the Board and after public hearings were held, it was determined that a variance/special permit was not required.

The board normally meets on the first and third Wednesday of each month, but due to the heavy workload during 1984, 26 meetings were held to conduct public hearings and 9 workshop meetings were held. A number of cases were complex and required continuances for the submission of revised plans and/or additional information and for more deliberations by the Board.

The hearings held by the Board are always open to the public and any person, whether entitled to notice thereof or not, may appeal in person, or by agent or attorney. When the board has reached a decision on any matter, the decision is written and filed with the Town Clerk and Building Inspector, and the notice of the decision is furnished to the persons who received notice of the hearing or to anyone who requests a copy and furnishes name and address, and to various departments and boards of the Town as appropriate.

The Board consists of five regular members and four associate members who are appointed by the Board of Selectmen.

Walpole Little League*

PROTECTION OF PERSONS AND PROPERTY

POLICE DEPARTMENT

The Walpole Police Department is happy to submit this report for the year 1984.

Patrolman Joseph Honohan retired on November 5th, after thirty-one years of dedicated service. We shall miss Joe around the station, and we wish him our very best in his retirement.

Patrolman David Gormley was promoted to the rank of Sergeant on September 10th. We all congratulate David on this achievement.

Patrolman Scott Parsons was appointed to the department on May 16th and we welcome him to our ranks and feel certain that he will be a credit to our organization.

On May 1st, the police department officially moved into its new police facility, the old town hall, which underwent renovation so as to make it functional for a police organization.

The much publicized Ultra High Frequency radio system commonly known as the BAPERN system became a reality by its purchase and installation in the new police facility. It is believed to be one of the largest, most powerful and technologically sophisticated police multi-community command and control systems in North America. Department personnel are excited and more than pleased with its capabilities and certainly has proved its worth in a short period of time.

A new telecommunications network for the Criminal-Justice Information System has been installed and replaces the old teletype system. This new system has improved speed and allows each user to operate the new terminal with greater ease and be able to enter and retrieve much more data.

Through the efforts of the area Police Chiefs an in-service training program was established for all police officers in the jurisdiction. Through the efforts of our local members of the State Legislature, funds were appropriated to fund and maintain such a program. As a result, a training site was selected and which is presently located in the Town of Foxboro and which is known as the South Suburban Police Institute. All police officers will attend a forty hour program and will be required to do so on an annual basis. Such a program is designed to upgrade officers in law enforcement and to keep pace with the many changes that occur throughout the year.

The following statistics will give you a quick view of the many police functions during the 1984 calendar year. As usual, I want to take this opportunity to commend all police personnel for a job well done.

| | 1983 | | 1984 | |
|---------------------------------|--------|---------------|--------|---------------|
| | NUMBER | DOLLAR VALUE | NUMBER | DOLLAR VALUE |

ANIMAL CONTROL OFFICER

It is with great pleasure that I submit the following annual report for the year of 1984.

| | | | |
|------------------------|-----|------------------------------------------|-------|
| Lost Dogs | 110 | Signed Complaints | 48 |
| Strays picked up | 91 | Citations Issued | 74 |
| Dogs Claimed by Owners | 60 | Complaints Received & Answered | 947 |
| Dogs Sold | 14 | Calls Made by Animal Control Officer | 1,074 |
| Dogs Destroyed | 2 | Total Calls Received & Answered | 1,582 |
| Dog Bites | 49 | Enforcement (Dogs Caused To Be licensed) | 2,551 |
| | | Kennels Inspected | 73 |

FIRE DEPARTMENT

The Walpole Fire Department is pleased to submit the yearly report of department activities for calendar year 1984. This year has been a busy one for the department for many reasons. We responded to a total of 1,241 incidents. Most notable was the storm of March 29th, which caused two serious house fires, the lightning and torrential rainstorm of August 7th causing one house fire and 20 calls in an 8½ hour period. On July 15th, we experienced a tragic house fire resulting in one fatality.

While it was not a dry year, we experienced several serious woods fire incidents requiring full commitment of the department and significant mutual aid from surrounding towns and the Department of Natural Resources.

For the first time since the permanent department was established in 1974, personnel changes have been made. Lieutenant Fred C. Mattson retired on November 4th on disability. Fred has served the town with dedication and distinction since 1951 and will be missed. Firefighter David I. Conley resigned on November 19th, in order to assume the office of Building Inspector. He served the department since 1973 and his expertise as a firefighter will greatly benefit the town as Building Inspector.

Fire Prevention continues to be of prime importance in this department. To this end, we have instituted many programs and continued those which we have promoted for many years. The department's commitment to Fire Prevention and Fire Safety in order to prevent loss of life and property will never change.

Aug. 4, 1984. Fire destroyed garage at rear of 1051 Main St. Photo taken from Kendall Co. parking lot.

We have, this year returned to the town a total of \$3,895.67, as follows: Outside Details, \$235.67; Smoke Detector Inspections, \$2,375; Oil Burner Inspections, \$790; Blasting Permits, \$130; Oil Tank Inspections, \$15; Fire Reports, \$25; and Propane Gas Storage and Removal, \$325.

The Department issued the following permits including inspections.

| | |
|-------------------------------------|-----|
| Smoke Detectors, Multiple Dwellings | 7 |
| Smoke Detectors, New Construction | 124 |
| Smoke Detectors, Resale Residence | 229 |
| Oil Burners | 85 |
| Blasting | 14 |
| Black Powder | 22 |
| Model Rockets | 23 |
| Tank Truck, Fuel Tank & LPG Storage | 24 |
| Underground Fuel Tank Removal | 3 |

The department has moved the administrative offices, through the good graces of the Building Repairs Department, into the former Police Department section of the Central Fire Station. This has been of tremendous help in enabling us to modernize the business end of the Fire Service. The day to day business continues as always.

Apparatus maintenance and repair, increasingly expensive, due to the age of some vehicles, is supervised by Lieutenant Rudolph.

Fire Education, and Public Information, especially in the schools is supervised by Lieutenant Manocchio.

Fire and Arson Investigation is supervised by Lieutenant Comeau.

Training, ever an ongoing necessity is supervised by Training Officer Hartmann.

The Emergency Medical Service Program, increasingly more complex and demanding, is supervised by Coordinator/Firefighter Boucher.

BREAKDOWN OF ALARMS

| | | | |
|---------------------------|-----|-----------------------------|-----|
| Accidental Alarms | 19 | Alarm Problems/Malfunctions | 120 |
| Appliance Fires/Problems | 38 | Assist Norwood Ambulance | 10 |
| Bomb Scares | 2 | Building Fires | 22 |
| Business Fires | 3 | Camp/Bonfires | 13 |
| Car Fires/Problems | 45 | Car Lockouts | 130 |
| Chimney Fires | 10 | Dumpster/Trash Fires | 46 |
| Electrical Investigations | 12 | False Alarms | 16 |
| False Telephone Calls | 5 | Garage Fires | 2 |
| Gas Investigations | 27 | Gas Leaks | 12 |
| Grass, Brush, Woods Fires | 98 | House Lockouts | 25 |
| Illegal Burning | 26 | Investigations | 58 |
| Miscellaneous | 21 | Mutual Aid Given | 10 |
| Needless | 9 | Open Hydrants | 5 |
| Permit Fires | 15 | Public Assistance | 26 |
| Service Master Boxes | 163 | Smoke Investigations | 19 |
| Sprinkler Problems | 10 | Stove Problems/Fires | 5 |
| Trees Down | 4 | Washdowns | 9 |
| Water Problems | 10 | Wires Down | 9 |

There were 249 audible alarms during the year, 152 were Squad Calls and 97 were box alarms.

The department continued its Public Fire Safety Education Program during 1984 by visiting local schools. Lieutenant Ernest Manocchio and Firefighter Stephen Boucher are shown discussing fire safety materials with children at the Fisher School.

FIRE ALARM MAINTENANCE

This division continued with alarm box testing and repair pole line maintenance, repair radio and intercom maintenance and daily circuit testing with proper record keeping. This year required many hours and expense for relocation of fire alarm circuits in order to accommodate Cable TV. Installation costs for this work was borne by Massachusetts Cablevision, Inc., in the amount of \$26,682.51.

The move of the department into the former police section of the station and the Police Department move into their new quarters, necessitated many hours of labor in order to wire telephones, alarms, intercom and other communication systems. These moves were made with no interruption in service due to the fire alarms maintenance expertise.

BOARD OF HEALTH

This year saw a "Changing of the Guard" at the Board of Health, as Warren Bushway retired after ten years of distinguished service to the Town of Walpole. Warren took the Health Department out of the Dark Ages and into the twentieth century by upgrading old ideas and instituting new programs to better promote the public health of the community. Warren's presence will surely be missed at the Town Hall.

Warren was succeeded by George Young, a long-time resident of East Walpole. George holds a Masters Degree in Health Education and brings with him five years experience as the Assistant Director of the Framingham Health Department. With his background in health education, George is hoping to institute various community service programs as well as new types of health promotional activities.

This year also saw the retirement of Eleanor Weissant from the Board of Health after eight years of dedicated service. Betty Ann Golding will take over as the new board member. Betty Ann brings with her a long list of credentials in the health field.

The Board of Health is required by law and state statutes to perform many important and crucial duties relative to the protection of public health, control of disease, promotion of sanitary living conditions, and the protection of the environment from damage and pollution. These responsibilities are made viable through the efforts of the Health Agent, who also serves the Town and Board in such other capacities as the Hazardous Waste Coordinator and as Munciple Coordinator for the Right to Know Law. The Agent's efforts are augmented by the yeoman work of part-time secretary Lucy Beaudett.

It was a busy year especially in the area of septic system inspections as 94 new systems were approved and 28 old systems were repaired. With all the new building going on in town it looks to be an even busier year next year. The number of restaurants which are now inspected stands at 56, while the number of retail food markets is 24. Miscellaneous inspections of housing, lead paint, day care centers, swimming pools, motels, schools, and camps also constitute a large amount of time spent "in the field".

Once again the annual Flu Clinic put on by the V.N.A. was a great success as almost 700 persons were immunized. Next year we are hoping to help coordinate a Hazardous Waste Day in conjunction with the League of Women Voters, so that the household amounts of hazardous wastes may be collected and disposed of properly.

The Board of Health wishes to thank other agencies and departments for their helpful cooperation and assistance throughout this past year.

Warren Bushway (right) receiving Award from Clement Boragine — August 1984.

VISITING NURSE ASSOCIATION

Susan B. Campbell, President
Elizabeth Moore, Vice President
Marjorie C. Smeltzer, Secretary
Barbara J. Hill, Treasurer

Arthur Canter, Executive Director
Barbara J. Lawless, Supervisor
Patricia A. Grugnale,
Home Health Aide Coordinator
Arlene H. Whitney, Nursing Coordinator
Linda Johnson, Rehabilitation Coordinator

16 Registered Nurses
5 Physical Therapists
2 Occupational Therapists
2 Medical Social Workers
1 Speech Therapist
25 Home Health Aides
9 Clerical Staff

The Walpole Area Visiting Nurse Association increased its home health services in Walpole by 13%. The Agency's services of skilled nursing; personal care by home health aides; physical, occupational and speech therapies; and medical social workers continue to be available for Walpole residents as well as residents of Medfield, Dover, Norfolk, Sharon and Wrentham.

The above services are usually reimbursed by third party payments such as Medicare, Medicaid and private health insurance. However, when services are needed and a family is truly needy, a sliding scale fee is available. In 1984, these free services to Walpole residents increased 54%. This will continue to increase due to the fact that people are living longer and third party payments are being reduced.

Our Public Health Program, which the town of Walpole supports, is an important part of our total organization. Health promotion visits to the chronically ill and the elderly are vital in helping to maintain these persons in their homes. There was an 18% increase in health promotion visits to Walpole residents over 1983.

Other people, not seen in the home, have received services at our many clinics. The weekly Senior Citizen Health Clinics continue to be held every Monday. Additional clinics are held monthly at Neponset View Terrace on the third Friday of the month and at Diamond Pond Terrace the second Wednesday of the month. During these clinics, blood pressures are taken, weight is monitored, and diet and medication counseling is offered. In addition, each session provides a new program of health education. These services are also available during office hours which are held Monday, Tuesday and Friday mornings between 9:00 a.m. and 10:00 a.m. at Blackburn Hall. Attendance at these Walpole Clinics increased 24% over 1983.

The flu clinic was well attended again this

year. Screening programs for diabetes, hypertension, and cancer have been offered throughout the year. One of these screenings was held at the Village Fair when the Walpole Area Visiting Nurse Association staff offered free blood pressure screenings.

An additional facet of our public health program includes appropriate follow-up for certain contagious diseases as mandated by the Massachusetts Department of Public Health.

Our Maternal-Child Program continues to grow with visits to newborns and their families with related service. In addition, small childbirth classes are offered several times throughout the year for those who seek a more personalized approach.

We continue to work closely with local physicians and community organizations. Thank you to all those people in the community, especially those town officials who chose our agency to help meet the varied health needs of your community this year.

While the Walpole Area Visiting Nurse Association is only three years old, it continues to provide the high quality care exemplified by the two agencies that merged to become the Walpole Area Visiting Nurse Association: The Dover-Medfield-Norfolk V.N.A. and the Walpole V.N.A. As we enter our fourth year of service, we hope that you will continue to call upon us when you or anyone you know requires health related services.

Julie Ellis

| Free Care | \$4,395 | \$6,524 | + 48% |

COUNCIL ON AGING

As the number of our citizens over age 60 continues to grow, the role of the Council on Aging becomes increasingly important. Using the 1980 census figures (as required by law), Walpole has 2379 citizens over the age of 60; of the number, 1160 were serviced in some way by the Walpole Council on Aging.

It is the goal of Walpole's Council on Aging to respond to the needs and wishes as expressed by older citizens rather than to merely administer the laws and regulations as set forth by the State and Federal authorities. We actively encourage the participation of those we wish to serve. Towards those ends, a variety of programs and services are offered throughout the course of the year at the senior Citizens' Drop In Center: professional advice and assistance is offered in such areas as medical, legal, and financial; there is an active exercise program available and a variety of social programs including line dancing and craft activities.

The Nutrition Program run under the auspices of King Philip Elder Services and managed by Mrs. Conchita Geyer is widely utilized both at the meal site and through home delivered meals with a total of 18,000 meals served in 1984.

Through the efforts of the Friends of the Walpole Council on Aging, a new van and an automobile were purchased. The car was used to provide transportation to medical appointments for 287 citizens; the van mileage was 13,653 miles with a passenger load of 6,103. The "Friends" organization, also, covers the mailing of newsletters using their non-profit rate.

The Council is especially gratified by the efforts of our Out Reach Worker whose function it is to be sure that all citizens who are eligible for services are aware of the programs and services to which they are entitled. We are pleased to report that every effort is made to get funding other than through taxes. Our discretionary grants and Formula grants are used to help fund the outreach worker and her program, and to supplement printing and telephone expenses.

Among Councils on Aging, Walpole is recognized as having one of the best. Credit for this is shared by many: an extraordinarily dedicated and competent Co-ordinator, an active Senior Citizens Club, a concerned Council on Aging, and the generosity and support of the private sector in Walpole.

*Member of the Walpole
Swim Team in action.*

DEPARTMENT OF VETERANS SERVICES

The employment situation and the present economy is creating difficulty for veterans who are unemployed. Our office is open on a full time basis to aid these veterans. We have a Human Services Budget of \$17,094.00 for this purpose which is lower than previous years due to more thorough investigation of applications. With the new system that has been implemented this has made a financial improvement for the town.

Veterans Services has another function which is to help veterans and their dependents apply for Federal Benefits. These services include the preparation of applications for Widow and Childrens Pensions, Burial Allowances, Service Connected Compensation, Non Service Connected Pensions, Grave Markers, Change of Address, Educational Benefits, Hospitalization, and Annual Income Questionnaires.

NORFOLK MENTAL HEALTH ASSOCIATION, INC.

Through its partnership with the Norfolk Mental Health Association, the town of Walpole is able to guarantee its residents -- children, youth and adults -- access to an integrated network of quality outpatient mental health services. Town contribution enables Cutler Counseling Center, a comprehensive clinic sponsored by the Association with limited support from the State Department of Mental Health, to provide a wide range of outpatient counseling services to citizens who need them at fees based on their ability to pay.

The Norfolk Mental Health Association is a private non-profit corporation, governed by a citizen Board of Directors who represent each of the twelve towns in its service area: Canton, Dedham, Foxboro, Medfield, Millis, Norfolk, Norwood, Plainville, Sharon, Walpole, Westwood and Wrentham.

The major programs of NMHA available to Walpole residents are: CUTLER COUNSELING CENTER, which has a large multi-disciplinary staff serving individuals, couples and families. Services include evaluation, referral, treatment, educational and support groups (e.g. Widowed Lifeline, Gym Program for Children, Social Rehabilitation, Divorce-Separation Workshops, Stress Management), children and adolescent groups, parent-toddler groups, as well as consultation and training services to community agencies, schools, and local industries; NORFOLK CLINICAL CHILDREN'S CENTER, a therapeutic day program for emotionally, behaviorally or developmentally disturbed children ages 3-8; SUPERVISED APARTMENT PROGRAM, a residential program providing supervised living for deinstitutionalized mentally ill/mentally retarded adults; PROJECT HIRE, a sheltered vocational rehabilitation facility for people with emotional, developmental or physical handicaps. Programs include diagnostic evaluations, electronic skill training,

work adjustment training and counseling, sheltered long-term employment, and transitional employment and job placement; CASE-AIDE AND PARENT-AIDE PROGRAMS, offering trained and supervised volunteer aides who provide one-to-one help to clients in the community, families and individuals in crisis, victims of domestic violence, parents at risk of abusing or neglecting their children, isolated elderly; INTERGENERATIONAL CARE PROGRAM, providing the opportunity for elderly residents in a Nursing Home to participate in providing group child care to pre-school children from families experiencing stress, simultaneously giving respite and support to the parents; COMMUNITY EDUCATION AND INFORMATION, offering publication of an informative newsletter, The Reporter, to every home in the service area, speakers for community meetings, workshops, consultation and educational materials.

During fiscal year 1984, Cutler Counseling Center provided direct services to approximately 527 people from Walpole. It also provided 114 hours of consultation to schools and community agencies. The total value of these services was \$114,350 of which the town of Walpole allocated \$9,1980.

In the past year, people from Walpole who came to us for assistance were often referred by friends, neighbors or family, may have read our newspaper, or were referred by clergy, school, physicians or community agencies. The most common requests for help concerned such problems as depression and anxiety, difficulties in marriage or family relationships, school or behavior related problems, alcohol or drug abuse, work-related problems, and acute or chronic mental illness.

The Norfolk Mental Health Association Board of Directors includes Robert Bassett, John Hoffman, Mary Lawrence and Eugene Reilly from Walpole.

HERITAGE AND NATURAL RESOURCES

CONSERVATION COMMISSION

The Conservation Commission is composed of unpaid volunteer members who are appointed by the Board of Selectmen. The Commission meets twice a month at regular meetings and conducts public hearings. Its members spend many hours outside of the meetings in performance of their duties.

The Conservation Commission is responsible for protecting and preserving the natural resources of Walpole, with its main efforts directed toward protecting the town's watershed areas. In carrying out its responsibilities, the Commission enforces the provisions of the Inland Wetlands Protection Act and the Town of Walpole by-law and coordinates its efforts with other town agencies for the protection of natural resources.

The Conservation land holdings are for the purpose of conservation and passive recreation. Acquisition of land is through gifts or purchase. Several donations of land are in the process, but due to lack of funds, no land was purchased this past year.

Trails exist through many of the Conservation properties for the enjoyment of our citizens. Maps of these trails are available at the Walpole Public Library and the Town Clerk's office. The Alan Flood Control Dam area is also available to the public for passive recreation. The main library has the Commission's family membership card for the Mass. Audobon Society, and it is available upon request.

A filing with the Conservation Commission is required in accordance with the Inland Wetlands Protection Act, Mass. Gen. Laws, Ch. 131, S. 40, and Town of Walpole Wetlands Protection By-law by anyone intending to do work which affects the wetlands and groundwater supplies in any way. If there is a question of whether the laws apply to your situation, a request for Determination of Applicability should be filed with the Commission.

Four members of the Walpole Pop Warner Football League waiting anxiously.

TOWN SERVICES

ENGINEERING DEPARTMENT

The Engineering division provides engineering assistance to all the divisions within the D.P.W., as well as other departments, situated in Town government and the general public. Its duties range from the planning stages of construction projects to the supervision of the actual installation. Such projects in 1984 included: sanitary sewer works, waterworks, drainage works and street resurfacing. These projects will be detailed in the following paragraphs.

The signs of construction were never made evident in the Town than it was in 1984. This Department provided valuable engineering assistance to the Soil Conservation Service for the construction of the Diamond Brook Culvert, the final phase of flood control for the Diamond Brook Watershed. Approximately 900 L.F. of twin-culverts were installed through the center of Town and for two months it closed the intersection of Main and East Streets to vehicular traffic.

Construction began for three of the seven proposed sanitary sewer contracts in 1984. Contract One consisted of the construction of a new main interceptor from the Norwood/Walpole Town line to Lewis Avenue, replacing the presently undersized interceptor and enabling the future expansion of Town sewer to South Walpole. Construction of sewers on Norfolk Street and West Street were part of Contract 4 of the federally funded sewer projects. Contract 7 enabled the Town to locate and repair existing sewer mains in the Washington Street/Stone Street area that were subjected to infiltration of groundwater.

The Engineering Department also provided professional assistance and supervision during the construction and installation of a 12" watermain in North Walpole. This provided valuable water flows to the rapidly developing area.

Construction of a number of residential subdivisions required inspections from the Engineering Department so as to assure compliance with the approved design. Such subdivisions were as follows: 1.) Bubbling Brook Estates 2.) Marilyn's Way 3.) Northwood Estates 4.) Lincoln Farm Estates 5.) Summerfield Acres 6.) Towside Estates 7.) High Plain Terrace 8.) Ginley III.

The Engineering Department provided engineering assistance to Town Boards in the

form of written reports. The Board of Appeals required responses for approximately 55 cases involving the determination of compliance with zoning by-laws and standard engineering practices. A highlight involved the review and approval of the conversion of the Highland's West gravel pit to residential condominiums. The sight has been approved for 36 units with a potential of 400 units total in the future.

The Planning Board requested input from the Engineering Department (40 reports) for proposed and approved residential subdivisions and one industrial subdivision. The input ranged from review and recommendations of such proposals to determination of bond amounts (13 bond determinations) and the inspections of the actual construction. A total of five (5) residential subdivisions were approved in 1984 totalling 30 lots increasing the total number of residential lots under Planning Board jurisdiction to 252.

Street Acceptance Plans as well as the necessary legal documents were prepared by the Engineering Department in order for the Town to legally accept the following streets: 1.) Pine Hill Drive 2.) Millbrook Ave. 3.) Evergreen Lane 4.) Ginley Road 5.) David Circle 6.) Renmar Avenue 7.) Buckboard Drive 8.) Sunnyrock Drive 9.) High Plain Terrace 10.) Summerfield Road 11.) Heritage Drive 12.) Eagle Drive 13.) Village Drive 14.) Regan Road 15.) Alton Street 16.) Daisy Drive 17.) Wendy Street 18.) Mulberry Lane 19.) Wildwood Drive.

Town maps were updated and reproduced for distribution purposes. These maps provide valuable information detailing the location of the following: 1.) Watermains 2.) Sewer mains 3.) Drain lines 4.) Zoning. Also updated by the Engineering Department were the Town Assessor's maps.

The Engineering Department also provided the following: Information and acted as a liaison for professional engineering consultants working for the Town on the sewer projects, soil contamination removal from the D.P.W. yard, Urban Systems Renewal Project, Groundwater Protection Study and other projects, processing of street light requests, contracting and inspecting street resurfacing, contracting & supervision of the removal of the gasoline tanks at the D.P.W. yard, storm drain studies, Edison petition reviews, construction cost estimates, street numbering, inspection of individual homeowners

connecting to Town utilities and Town property lines and easement surveys.

The total land area of the Town is 13,498.6 acres of 21.1 square miles. The ownership of land by various levels of Government, area, and percent of total Town area is shown on the following.

| <u>Town</u> | <u>Acres</u> | <u>Square Miles</u> | <u>Percent of Total</u> |
|---------------|--------------|---------------------|-------------------------|
| Tax Title | 201.0 | 0.3 | 1.4 |

DEPARTMENT OF PUBLIC WORKS

HIGHWAY & PARK DIVISION

The Highway section is responsible for maintenance of streets, sidewalks, stormdrains, traffic signs and lights, snow and ice control operations. There was a total of 1.8 miles of double chip seal with asphalt this year. (Reason being no money.) Streets resurfaced with bituminous concrete were Elm Street from Medfield townline to Robbins Road and Pleasant Street from Polley Lane to the Norwood townline.

Other Highway work performed during the year is as follows: Grading of 11 graveled roads, mechanical sweeping of all streets, bituminous concrete patching of potholes and utility trenches and application of approximately 35 miles of pavement markings by contract. Storm drain maintenance work included annual cleaning of approximately 2500 catchbasins under contract, repairs of 83 basins and manholes, rodding of obstructed drain lines and selected ditching work. A total of 292 traffic and street signs were made or purchased and installed.

The Park section maintains more than 100 acres of parks, lawn and athletic playing fields. This work includes the application of fertilizer, lime, grass, mowing on a regularly scheduled basis. Other miscellaneous work includes collection of litter from all public ways, play areas, bi-weekly rubbish collections from certain buildings and trash receptacles, cutting of grass and brush along roadways, maintenance of trails, removal of brush from the Town Forest, an annual fall leaf collection, planting of new trees, and removal of diseased and dead trees.

D. P. W. MAINTENANCE DIVISION

The D.P.W. Maintenance Division is responsible for the repair work and maintenance on all Town-owned vehicles and miscellaneous equipment, excluding fire engines.

Regularly scheduled maintenance was performed on fifty motorized pieces of equipment operated by the Department of Public Works: Water, Highway, Park and Cemetery Departments; seven automobiles assigned to various Town Departments; seven Police cruisers, one Police safety car, one ambulance, Animal Control vehicle, Civil Defense van, ambulance and 4X4, Senior Citizens' van and sedan and two Fire Department automobiles. Also maintained were the auxiliary engines at the six water pumping stations, two booster stations and the water treatment plant and all other miscellaneous D.P.W. equipment including sewer rodders, centrifugal and diaphragm pumps, natural gas and diesel engines, portable generators, welders, flail and rotary mowers.

Major repair work performed last year included two clutch jobs, three transmission

overhauls, twenty-three brake jobs, three paint jobs, one differential overhaul, and three engine overhauls, also the painting and sandblasting of all snow plows and sander units. Welding repairs were also made on sanders, snow plows and frames, sidewalk tractors, backhoes and loaders.

New equipment purchased was inspected for compliance in Town specifications and prepared for operation. Emphasis placed on preventive and routine maintenance has continued and proven to be cost effective. As a result of our regular scheduled maintenance program there have been fewer breakdowns and less vehicle downtime. Major repair expenses both in terms of supply parts and labor have been kept to a minimum.

BUILDING MAINTENANCE

The Building Maintenance Division is generally responsible for repair and upkeep, capital improvements, and proper operations of all electrical, plumbing and heating and ventilation systems in all public buildings.

Energy conservation and vandalism preventative measures are a prime consideration, and to this end, we are continually updating our knowledge in these areas and applying this knowledge to many various problems.

Vandalism

Please note the drop in cost of vandalism from 1973 to the present. This drop is due to vandalism preventative measures taken by the Town of Walpole.

| | |
|----------------|----------------------------|
| 1973 | over \$100,000 |
| 1974 | over \$100,000 |
| 1975 | 30,000 |
| 1976 | 26,000 |
| 1977 | approx. 20,000 |
| 1977 thru 1983 | Approx. \$ 17,000 per year |

There is a point in time when it is very difficult to get the cost of vandalism as low as one may desire; however, all efforts are being made to eliminate vandalism entirely.

In addition to vandalism, there are a countless number of repairs made in every building, such as door checks, rixons, accidental glass breakage, painting, installing shelves, replacing all types of hardware, repairing steps, shades, furniture, rekeying locks, welding frames and old grilles together to prevent damage.

Budget work completed in 1984

Boyden School—Painted portion of exterior. Repaired portion or roof.

Bird Middle School—Repaired portion of roof.

New Fisher School—Repaired portion of roof, including canopy in front of building. Installed suspended ceiling under canopy and new lights in ceiling. Replaced floor tile in seven classrooms and corridors and stairwells of original building.

Senior High School—Installed 2nd and 3rd phase of new lockers in boys' locker room.

Old Post Road School—Painted Lavatories. Repaired & painted panels under windows.

Plimpton School—Painted exterior wall rear of building.

Eleanor Johnson Middle School—Painted 2nd floor corridor. Installed domestic hot water boiler.

D.P.W. Garage—Repaired portions of roof. Replaced one overhead door.

Blackburn Hall—Painted portions of interior building.

Town Hall—Repaired gutters around building. Installed P.A. system in Selectmen's room. Made one entrance, three foot wide, for wheel chairs.

Center Fire & Police Station—Painted 4 rooms.

Prior Year's Fuel Consumption in Degree Days

The degree-day figure, a measure of fuel consumption, indicates how far the days mean temperature fell below 65 degrees.

| Season | Gallons | Cost/ Gal. | Total Cost | Degree Days | Gal./Deg. Day | Cost/Deg. Day |
|--------|---------|---------------|---------------|----------------|------------------|------------------|
| 72-73 | 505,379 | \$0.119 | \$ 60,401 | 6349 | 79.59 | \$ 9.51 |
| 73-74 | 465,393 | 0.299 | 139,236 | 5974 | 77.90 | 23.30 |
| 74-75 | 460,832 | 0.347 | 162,045 | 6181 | 74.55 | 26.21 |
| 75-76 | 429,517 | 0.363 | 155,957 | 5780 | 74.31 | 48.16 |
| 76-77 | 452,777 | 0.360 | 163,000 | 6537 | 69.26 | 24.93 |
| 77-78 | 457,477 | 0.352 | 161,325 | 6556 | 69.77 | 24.60 |
| 78-79 | 436,656 | 0.41 | 177,945 | 6216 | 69.44 | 28.62 |
| 79-80 | 390,865 | 0.89 | 347,800 | 5961 | 65.57 | 58.34 |
| 80-81 | 342,318 | 0.89 | 304,663 | 6287 | 54.44 | 48.45 |
| 81-82 | 319,797 | 1.00 | 319,797 | 6634 | 48.16 | 48.16 |

81-82 Converted To Therms

| Season | Total Therms | Cost Therm | Total Cost | Degree Days | Therm Day | Cost/Per degree day |
|--------|-----------------|---------------|---------------|----------------|--------------|------------------------|
| 81-82 | 463,705 | .689 | 319,797 | 6634 | 69.89 | 48.16 |
| 82-83 | 328,635 | .65 | 192,963 | 5754 | 57.11 | 33.53 |
| 83-84 | 425,117 | .577 | 237,546 | 6310 | 67.37 | 37.64 |

The increase in use of energy is due to several factors.

1. There were 556 more degree days in 83-84 than 82-83.
2. The buildings are being utilized a great deal more. Extended use of buildings causes a greater demand for energy.
3. Less money was expended on the repairs of temperature control systems.
4. The intense desire by many to conserve has lessened. This I believe is due to the fact that there is no energy crisis as in the seventies. There is plenty of fuel, and the cost has been dropping for the last two years. However, there still is a money crisis and all efforts shall continue to conserve energy at all times. At this

writing, devices are being installed to conserve energy in many buildings.

We are constantly working on the following to have a system that will someday be efficient in every way: burners, boilers, steam traps, all types of plumbing, low water cutoffs and very important temperature control systems. We certainly have a long way to go, but the attempt is being made.

WATER & SEWER DIVISION

The water and sewer division is responsible for the operation and maintenance of the Town's water supply, including the distribution system and quality of the water which must meet or exceed all State and Federal Regulations. To meet these stringent regulations, there are a total of twenty-eight samples taken per month to be tested bacteriological purity of the water. All have proved negative in the past year. Our responsibility extends itself to include the maintenance of the sanitary sewer collection system which, over the next few years, is projected to expand and include a larger portion of the Town. Sodium content of the town water supply was tested in 1983 on a quarterly basis and an average of 27 mg/1 was found to be present in the water supply. State guidelines of 20 mg/1 were exceeded and a notice will be sent to all consumers informing them of this fact in the yearly bills. During each month, samples are tested for fluoride concentration to insure adequate dental health protection. Water from the Mine Brook wells is still treated and tested on a daily basis to determine proper iron and manganese control.

The semi-annual flushing of our distribution system will continue during the next year.

In addition to general operations and maintenance work, the following new construction and miscellaneous work was completed:

| Number | Description |
|--------|---------------------------------------|
| 114 | New domestic water services installed |
| 8 | Domestic water services renewed |
| 124 | Water service leaks repaired |
| 6 | Water main breaks repaired |
| 6 | Fire hydrants repaired |
| 3 | Fire hydrants replaced |
| 1 | Fire hydrant installed |
| 0 | Fire hydrants removed permanently |
| 3 | New sewer services installed |
| 0 | Sewer connections repaired |
| 0 | Water gate boxes repaired |
| 0 | Frozen services |
| 0 | Frozen services lowered |

Total production statistics were not available at this time.

RECREATION DEPARTMENT

The Recreation Department was very active in 1984. Programs such as Red Cross Lessons, Swim Team, Playground and Tennis were very well attended. 307 children received completion Certificates for Red Cross Lessons. 165 participated in the Girls Softball Program and they all enjoyed themselves over the summer months.

A trip sponsored by the Recreation Department to a Pawtucket Red Sox Game was very successful and enjoyed by fans of all ages.

The Recreation Department is also proud of the Special Recreation Camp that is held in the

Summer for 8 weeks. The day camp is recreationally based with emphasis on development of cooperative group behavior and learning basic skills that enable the campers to participate in a variety of activities. The 26 campers competed in the "Special Olympics" held in Dedham and went on their first over-night camping trip. During the Winter, Ice Skating, Gymnastics, Swim Team and Basketball programs helped make the Winter more bearable. 1984 was a very successful year Recreationally for the citizens of the Town of Walpole.

INSPECTOR OF WEIGHTS & MEASURES

The following is a summary of this department's activities during 1984:

| | |
|------------------|-----------|
| *Units Tested | 364 |
| Units Sealed | 354 |
| Units Condemned | 6 |
| Units Not Sealed | 4 |
| Units Adjusted | 44 |
| Fees Collected | \$1825.00 |

Reweighting of food products, to ensure accuracy of weight, was completed. In addition, periodic determinations were made to ensure compliance with unit pricing directives.

The net cost of running this department for the entire year amounted to \$1944.35 or approximately 10 cents per resident.

*Units defined as scales, balances, weights, gasoline pumps, oil truck meters.

ANIMAL INSPECTOR

All premises where livestock is kept have been visited and inspected and comply with the regulations set forth by the Division of Animal Health.

All new animals from outside the state,

entering herds, have been examined.

All reported dog bites have been investigated and quarantine regulations carried out.

No positive cases of rabies were found.

Peter Turco, Eddie Pellagrini

BUILDING INSPECTOR/ZONING ENFORCEMENT OFFICER

A smooth transition took place on November 7, 1984 when David Conley, the Deputy Building Inspector for the town, assumed the duties of Building Inspector. William Munroe, the Walpole Building Inspector for the past five and one-half years, returned to Salem, MA to a position with the City of Salem Building Department. Bill's expertise and pleasant personality will be sorely missed.

Construction activity followed the national trends, centering on single family home construction with a 15% increase in permits. Condominium construction showed a slight drop from the previous year, inground swimming pools set new records, commercial development was most active with the conversion of the Fales Complex to business use, the conversion of the Old Fisher School to office spaces, as well as

the major remodeling of several business within the town.

In addition to responding to inspection requests, the department continued its inspection of public assembly buildings as required under Mass. General Law to insure the public of its safety and welfare.

The Zoning Enforcement Officer referred a number of persons to the Zoning Board of Appeals for possible relief from the Zoning By-laws, investigated numerous violations of the by-laws, and represented the department in District and Superior Court on several occasions.

I would like to take this opportunity to congratulate my staff for a job well done and for their continued professionalism in the performance of their duties.

GAS INSPECTOR

During the calendar year 1984, 335 applications were filed for gas permits. All complaints were investigated, several in collaboration with the Building Inspector, the Plumbing Inspector, and the Town Sanitarian.

The Gas Inspection Department is located in the Building Inspector's Office in the Town Hall.

WIRING INSPECTOR

During calendar year 1984, 663 applications were filed for wiring permits, and several complaints were investigated with regard to electrical installations.

The Wiring Inspection Department is located in the Building Inspector's Office in the Town Hall.

PLUMBING INSPECTOR

Four hundred eighty-six plumbing applications were filed for plumbing permits during the year 1984 and all complaints received were investigated.

At this time, I wish to thank the Board of Health, Town Administrator, Building Inspection Department and their staff for cooperation given me in carrying out the duties of Plumbing Inspector.

TOWN REPORT COMMITTEE

The Town Report Committee has a membership of five, appointed by the selectmen.

Bidding for the printing of the Town Report attracted several printers. The Committee chose the lowest bidder who has done a satisfactory job for the last two years. The Committee wishes to thank most town committees for getting their reports in promptly which enables us to go to press on time.

Once again, the reports will be distributed free of charge and will be available at the Town Clerk's office as well as the Walpole Public Library and the East Walpole branch.

In conjunction with the Olympic Year of 1984, the theme for this year's report is Sports in Walpole. We are proud of the variety of sports available to all of our citizens.

1984 Girls Championship Basketball Team pictured with Governor Mike Dukakis and Frank Woodward.

EDUCATION

SCHOOL COMMITTEE

The school year 1983-84 will be remembered as the year for a plethora of educational reports. This political phenomena was initiated in the summer of 1983 with a report generated by the Department of Education entitled, "A Nation at Risk." The report advanced five recommendations regarding curriculum content, standardization and expectations, Basic Skills time on task, staff development and leadership and fiscal supprt. The Walpole School Committee takes pride in having addressed in a significant way each of these issues by the formulation of programs over the past five years.

Significant changes are taking place in the housing patterns within the two elementary school districts. This fact must be examined carefully as it impacts on the physical plant for the next five-ten years. The Superintendent will be directly involved in the development of the demographics of this problem.

In taking appropriate follow up action on the above issue, the School Department must continue to address the academic needs of our present students and ensure equal access to academic success regardless of the student's level of ability or their individual school placement. It is our intention to address in our objectives both the cognitive and the affective domain of the children's growth. The following goals and objectives are a direct result of continuous discussion with the systems administrative staff. All goals can be accomplished and each school will be directed to immediately generate unique objectives related to meeting these goals.

The Walpole School Committee adopted the following goals and objectives for the school year 1984-1985:

- I. CURRICULUM. An extraordinary effort will be made to complete and implement specific objectives in all subject areas K-12.
 - A. K-8. The updated curriculum will be evaluated at mid year and again at the end of the year. This follows the continuous development curriculum plan instituted two years ago.
 - B. K-8. All teachers will implement as a minimum these stated objectives.
 - C. 9-12. All major subject areas which correlate with the new High School standards will have specific objectives discussed and written. This is to complete what was started last year.
- D. Testing. 1-8 standardized criterion testing program will be implemented in early June for constant use by the classroom teacher as a resource.
- E. Gifted and Talented. This program will be intensified and supplemented by an afternoon academic intramural program at the elementary and middle school levels.
- II. MICRO-COMPUTERS. Their use as an educational tool must be constantly monitored to effect the greatest return for the time and money invested.
 - A. Funding. Internal Funds must be generated to provide additional hardware and software. A committee similar to the Town-wide Computer Study Committee should be considered as a vehicle to study this concern.
 - B. Administrative Use. Strong effort will be made to use the new Town computer in a cost-effective, time saving manner.
- III. STAFF DEVELOPMENT. Training will be offered in those areas of need as expressed by the staff first.
 - A. Peer Teaching. Continued use of the expertise on our staff will strengthen this positive program.
 - B. External. Consultants will be utilized when necessary.
- IV. SPECIAL NEEDS. Equal access to success regardless of grade level will direct all administrative action.
 - A. Plimpton School. The TEC pre-school class will provide internship opportunities for our child development class.
 - B. 9-12. A continuous effort will be made to keep our High School enrollment mainstreamed. However, this must not be done at the expense of the student's personal growth or that of the student body.
 - C. Middle. A strong program for language development diagnosis and treatment will be continued and both schools will offer similar Responsibility Development Programs.
 - D. Elementary. All efforts will be made to address the needs of the students within

the regular classroom.

IV. LONG RANGE PLANNING

- A. The Long Range Planning Committee. This Committee will be reconvened and focus on the physical plant needs, particularly elementary, as the Town continues to grow.
- B. Administrative. The Central Office has been reduced to its minimum. The next

phase of the Superintendent's five-year plan, Curriculum Coordinators K-12, must be examined and direction established with regard to future enrollment projections.

The Walpole School Committee extends acknowledgement and sympathy to the families of two teachers, Mary Connolly and Jan Ostrum, who passed away during this year.

SUPERINTENDENT OF SCHOOLS

An educational philosophy should center around and focus upon the individual - the individual's learning process, and his/her relationship and interaction with the Teacher. Every action or program generated within the school system must recognize the dynamics of the learning process and systemwide goals and objectives reflect this.

The opening of school in September, 1984 was significant in that although the overall population continued to drop, this year 3.3% to 2861 students, our elementary schools have reached capacity. In an effort to address this problem, the kitchen equipment at the Old Post Road Elementary School has been removed. The area gained is presently being reconstructed into five small teaching areas which will relieve overcrowding in other areas. This work is being done by the Tri-County Vocational School students at only the cost of materials.

The Long Range Study Committee will reconvene and examine many options for the changing of grade levels within the present buildings. A recommendation will be made to the School Committee in the Spring of 1985 for implementation in September 1986.

PERSONNEL CHANGES

The number of overall staff continued to decline at a greater percentage rate than the student population despite the need to increase staff at the elementary level. The staff was saddened by the deaths of two experienced and dedicated teachers, Mary Connolly and Jan Ostrum. Jane Gulla, Raymond Valaitis and Elmer Snell retired after many years of dedicated service. Catherine Earhart, Educational Specialist in Reading and Basic Skills, left the State and her position was not filled. In addition, Hazel Tarbell, Merle Hescocock and Warren Young retired and some non-professional positions were made vacant.

The demographics of the relationship between increasing enrollment at the lower level and overall cut-backs in staff must be carefully examined. In a short period of time, a critical

point will be reached where programs will be effected and the quality of education as demonstrated in our student performances will decline. This end result must be discussed soon with all concerned and the Town must be made aware of the ultimate consequences.

CURRICULUM

The K-8 curriculum in all subject areas will be used for the second year in 1984-85 and teacher evaluation will take place at the end of each semester. The evaluation and resultant change makes this curriculum relevant and current. This process is proving to be effective as the document reflects the ideas and concerns of the teachers on an annual basis and new objectives can be implemented immediately.

New additions to the curriculum were made in the area of Health and the Talented and Gifted. A continuous program to teach awareness of Drug and Alcohol abuse has been instituted within the Physical Education/Health Department. Teachers have been trained, new materials purchased and an ongoing relationship with FACE has been re-established in this area. The Talented and Gifted Program has been enhanced by the development of afternoon enrichment clubs in the areas of Math, Science and Language Arts. The Art and Music Departments have been combined into one Department of Fine Arts and the number of students has been increasing in instrumental music. This bodes well for the future of our High School Orchestra and Marching Band.

The Guidance Department has instituted a new Career Education curriculum at the Middle School and this will be co-ordinated in the future with a continuing program at Walpole High School.

It is my belief that 1984 has been a good year for education in Walpole. Changes have occurred, as they should in any institution serving the public. Funding has been adequate as a result of increased State aid to the Town and the support of the parents working closely with the professional staff has resulted in an education program of the highest quality.

FALES, LEACH and ROGERS SCHOLARSHIP AWARDS

1984 Fales, Leach and Rogers Scholarships were awarded Monday evening, December 17, 1984 to thirty-four Walpole High School graduates currently attending institutions of higher education.

Fales Award to:

Lori Baker, attending
Brown University Graduate School
Janice Connolly, attending
George Washington School of Medicine
Patricia Dumphy, attending
Columbia University Law School
Colleen Foley, attending
Eastman School of Music
Sean Jackson, attending
Boston Conservatory of Music
Richard Jordan, attending
Northeastern University
Laura Knobel, attending
Boston University School of Medicine
Betsy Lockhart, attending
Colby College
Kelly McGrath, attending
Massachusetts Maritime Academy
John Moloney, attending
University of Mass. Medical School
Christine Morris, attending
University of Lowell
Cheryl Parente, attending
University of Mass. Medical School
Stephen Parente, attending
University of Minnesota Graduate School
Maura Rooney, attending
Worcester Polytechnic Institute
Paul Rooney, attending
Harvard University
Kristin Seymour, attending
Mass. College of Pharmacy
Arthur Thomas, attending
Rensselaer Polytechnic Institute

These awards totaled \$30,814 from the income of the Fales Scholarship Fund established in 1931, the Leach Scholarship Fund established in 1960 and the Rogers Scholarship Fund established in 1982.

Leach Award to:

Thomas Cappaelletti, attending
Worcester Polytechnic Institute
Caroline Cento, attending
Williams College
Nancy Cibotti, attending
Harvard University
Kathryn Dumphy, attending
University of New Hampshire
Ruth Harwood, attending
University of Rhode Island
Barbara Mahoney, attending
Tufts University
Paula Mahoney, attending
University of New Hampshire
Paul Mock, attending
Syracuse University
Daniel Plummer, attending
Brown University
Pamela Quigley, attending
University of Vermont
Kathleen Rooney, attending
Tufts University
Mary Stuber, attending
University of Connecticut
Beth Varney, attending
Bowdoin College

Rogers Award to:

Thomas Cibotti, attending
Boston College
Sean Kelley, attending
Boston College
Lisa Parente, attending
College of the Holy Cross
Susan Walsh, attending
Boston College

LIST OF GRADUATES

STATISTICS FOR THE CLASS OF 1984

Walpole High School will graduate 285 students in June of 1984. Considering the total class of 285 students, 240 have made application through the guidance office for further study. The breakdown and a comparison with the classes of the five previous years is as follows:

| | 1979 | 1980 | 1981 | 1982 | 1983 | 1984 |
|----------------------------|-------|-------|-------|--------|--------|--------|
| Four year Private Colleges | 22.5% | 31.4% | 31.3% | 33.17% | 38.31% | 38.31% |
| Four Year State Colleges | 16.0% | 19.7% | 21.0% | 20.9% | 27.4% | 25.6% |
| Two Year Private Schools | 7.7% | 5.3% | 7.6% | 10.2% | 6.4% | 10.2% |
| Two Year State Schools | 7.1% | 8.0% | 8.6% | 4.9% | 5.4% | 6.0% |
| One Year Programs | 8.6% | 2.7% | 4.0% | 5.6% | 4.1% | 1.8% |
| Nursing Schools | .3% | .4% | .03% | .3% | .4% | 1.1% |
| Preparatory Schools | 1.2% | .8% | 1.1% | 1.3% | 1.36% | .3% |

This is a total of 83.38% of this year's students. For these student's and for past graduates the Guidance Department processed 1360 applications.

| | 1979 | 1980 | 1981 | 1982 | 1983 | 1984 |
|----------------------|-------|-------|-------|-------|-------|-------|
| Full Time Employment | 25.2% | 27.0% | 21.0% | 16.7% | 10.9% | 12.8% |
| Armed Services | 4.9% | 1.1% | 1.2% | 3.0% | 2.7% | 1.5% |
| Undecided | 5.2% | 3.4% | 4.3% | 3.6% | 3.05% | 2.0% |
| Homemaking | --- | --- | .03% | .3% | --- | --- |
| Travel | --- | --- | --- | --- | --- | --- |
| Unknown | 1.23% | --- | --- | --- | --- | --- |

TRI-COUNTY REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

The Tri-County Regional School District Committee reorganized in July and Timothy Greene (Sherborn) was elected Chairman. Others elected to office were Robert Riccio (No. Attleboro), Vice-Chairman, and Melvin Long (Norfolk), Secretary. Carole Russell (Franklin) was appointed Chairman of the Collective Bargaining Sub-Committee and John Hurley (Medway) was appointed Chairman of the Personnel & Policy Sub-Committee.

The ability to adjust to changing conditions has long been held as a valuable educational concept, and we trust that this report will give evidence that Tri-County continues to adjust favorably.

Academic Department

The academic programs at Tri-County continued to develop in 1984 so as to better serve the changing needs of our students. The English and Math Department expanded their curricula to better serve our college bound students. In addition, the English Department has added the study of media to its existing communications curriculum. This important area of communications study will be adapted and offered to all students in grade eleven.

The Business Department fully implemented its computer literacy program in 1984. In addition to basic typing skills, all Tri-County students will graduate with functional computer literacy. This year also witnessed an even closer working relationship between the Business and Distributive Education Departments. A team teaching approach was utilized to instruct identified students in the areas of word processing and computer spread sheet analysis/accounting.

Dramatic changes were seen in Tri-County's Science Department in 1984. This year saw the first full year's implementation of a two-year pilot project entitled "Principles of Technology". In cooperation with 28 states and 2 Canadian provinces, Tri-County has embarked on this program to prepare workers/technicians for our rapidly changing technological society. An holistic approach to scientific principles is utilized.

As the "Principles of Technology" demonstrates, Tri-County will continue to offer in 1985 the finest academic programs possible so as to best prepare students for whatever the future demands of them.

Vocational Department

In an effort to maintain the current "state of the art", several vocational shops have added equipment and expanded facilities. The new training units have been incorporated into the eleventh and twelfth grade curriculum.

The auto Repair Shop has completed the development of a new "Engine Rebuilding Program". The designated shop section is totally organized with its specialty engine rebuilding tools in place.

The Machine Shop has gained significant success instructing numerical control (NC) milling techniques. Currently, a shop computer has been added to institute "Computerized Programming of Machine Technology". This new concept will become a significant advancement of instruction in Machine Shop Technology.

The Electrical Shop has been putting the final touches on the development of its "Electric Motors/Motor Controls/Solid State Program". This advanced electrical technology will be an important part of the instruction provided to all graduates of the electrical department.

Technical Department

Building upon the contributions from several industrial, business and hi-tech firms, Tri-County has been able to implement plans made in 1983 for a "computer center". Students in the Drafting and Electronics Programs had access to ten IBM P.C.'s with memory capabilities to utilize a sophisticated software program such as Auto-CAD. With only two students per machine, the level of instruction became individualized and therefore allowed "hands-on" learning to occur.

The Graphic Arts Department expanded its computerized type setting with the purchase of the second Modular Composition System. This totally automated system increases printing production by decreasing the amount of time necessary to correct errors. With the acquisition of this equipment, former students have been able to return for brief refresher courses.

With grant money from the federal government, ten IBM P.C.'s were purchased and word processing was introduced to students in the Distributive Education program. In addition to this skill, they were taught accounting and data-based management on the computers. The latter two programs were also offered to students in the Culinary Arts Program since the use of computers in the service occupations is widespread.

Service Occupations

Plans made last year for opening a branch of the Dean Cooperative Bank at Tri-County were formalized and approved by all the necessary organizations this year. The bank is now nearing completion with all of the work being done by Tri-County students and is scheduled to open in February 1985.

An Apple IIE was purchased by the Child Care Department in order to introduce the nursery school children to the world of computers. This decision was based on the fact that most communities in the district begin to utilize computers as an instructional aid as early as kindergarten.

Community organizations and non-profit groups continue to be serviced by students in the various service-oriented departments. Senior Citizens as well as nursing home residents have been frequent visitors in the Cosmetology Department where they have received a full range of services from manicures to chemical treatments. They have also enjoyed the variety of luncheon menus offered daily in the Rainbow Room.

The staff in the technical and service programs are grateful and appreciative of the support given to them by members of the community.

Special Needs Department

During the 1984-85 school year Tri-County continued to offer a full range of special education programs under Chapter 766. The most noticeable change in this aspect of our programming has been an expansion of our work experience program where eligible pupils are transported to employment sites away from school for on-the-job training in entry level positions. This has led to improved job placement and increased appreciation of the requirements of the workplace by some of our pupils with special needs.

Guidance Department

The Class of 1984, which graduated 203 students, is accounted for in the following manner: 76% are employed full time, 18% are attending two or four year colleges, 4% are in the military, and the status of 2% is unknown.

Scholarships and awards in the amount of \$12,000 were awarded to deserving students.

During the senior year, 81 students were placed on cooperative work programs at 32 businesses and industrial sites every other week.

The Pupil Services Department administered the Preliminary Scholastic Aptitude Test, S.R.A. Achievement Tests, the Armed Services Vocational Aptitude Test Battery, and the Massachusetts Basic Skills Tests.

The Department conducted a support group for students in non-traditional programs and also workshops for parents and students regarding financial aid.

The Director of Pupil Services is in the process of conducting assemblies, tours, and interviews to select the incoming Freshman class for September 1985.

Athletic Department

Tri-County continues to offer its student athletes a variety of sports to participate in and to compete against other vocational and small

comprehensive schools in the Mayflower League.

The Tri-County Baseball Team had a very successful season qualifying for the Mayflower League Playoffs and narrowly missed a berth in the State Baseball Tournament. Wally Songin of Walpole was the League's leading hitter.

The Tri-County Athletic Department was very proud to honor LuAnn Cormier of Franklin this Fall as the Most Outstanding Female Athlete Ever to attend Tri-County. LuAnn holds many school records and has been the M.V.P. and Allstar on all the teams she has participated on - Soccer, Basketball, Softball, and Volleyball.

The Athletic Department introduced a junior varsity hockey program and next year is proposing a full varsity and junior varsity program for its athletes.

Evening School

The Adult Continuing Education Program at Tri-County has increased its enrollment to 350 students, in 27 different technical programs, attaining hands-on experience for both career and personal enhancement.

In the Fall of 1985, Tri-County is planning to provide new and exciting career oriented programs that include certification courses in Oil Burner Repair, Solid State Motor Control, Machine Shop, Auto Maintenance, Computer Technology, Electronics, Air Conditioning, Word Processing, and Cosmetology.

Brochures are available by calling during the day from 8:00 A.M. to 3:00 P.M. or Monday and Wednesday evenings from 6:30 to 9:30 P.M. at 528-5400.

Community Service

The facilities at Tri-County were made use of by a number of community organizations throughout the year - most notably the American Red Cross and the Franklin Life Savers Association. Cardiopulmonary resuscitation and choke saver courses were offered by the Franklin Life Savers several times during the year.

The Tri-County Bloodmobile held annually in February collected another record setting number of pints. Once again, Tri-County staff and students accounted for over three-fourths of the total pints given.

Computer Camp

For most students, summertime is considered playtime and an all too brief respite from school. July and August mean swimming, outdoor activities and recreational camp activities.

However, eight-six boys and girls between the ages of 10 and 15 decided to experience a different kind of camp. They chose to attend classes at Tri-County from 8:30 in the morning until 2:30 in the afternoon in order to learn about computers.

Using ten IBM P.C.'s, the students were exposed to the many computer functions and capabilities. They were also taught how to con-

trol the computer with recorded commands, write a simple BASIC program execute special mathematical functions and translate algebraic expressions in BASIC.

There was also some time for fun and games. A demonstration of robotics using the Armdroid I and HERO I fascinated the youngsters as objects were lifted and placed in specific receptacles by the arm and a non-human voice from a mechanical object spoke to them. "Star Wars" and "War Games" provided a period of fantasy, but the "Space Shuttle" computer game allowed students to test their abili-

ty to zoom in and out of the United States.

Since the Computer Camp was so popular and successful, it will be offered again during the summer of 1985.

Summary

As we move into 1985 and further anticipate future educational needs, we pause to thank all district residents for their past cooperation and support. We will continue to make every effort to earn that support by providing the best and most current educational programs possible.

During 1984 the Walpole Public Library contineud to offer a variety of services, programs and materials. In addition to a wide variety of books, magazines, newspapers, recordings, art prints, and microforms the Library also offered museum passes, cassette recorders, cameras, readers advisory and reference services, inter-library loans and programs of interest to all age groups.

Adults attended programs on Financial Planning, Library Automation and Resource Sharing and two authors' talks funded by the Walpole Arts Lottery Commission. The authors were Barbara Delinsky and John McAleer.

The Children's Department continued to provide a wide variety of reading materials, recorded stories, cassette - book sets and programs for children of all ages.

Pre-school story hours for children 3-5 years of age were held twice a week except for the summer months. Mrs. Patricia Howes conducted an additional story hour each week with a staff

of volunteer mothers that allowed even more children to participate in this enjoyable and rewarding experience. Library tours, orientation for school groups and loan of classroom collections remain on-going activities. Craft, music, film, clown and educational programs were held throughout the year. Mrs. Munafo of Stony Brook Nature Center presented a program on Learning About and Drawing Animals, Dr. Hedley Marks gave a participatory program on pet care and Mrs. Kingsbury performed in Music at the Library for Pre-schoolers. During National Children's Book Week a Library Trivia contest took place and National Library Week was celebrated with the election of a favorite author, a Book Button Giveaway, poster contest and the display of books written by Old Post Road School third graders.

Two reading clubs were held: Jack and the Bookstalk during the winter and Summer Reading Games during the summer school vacation. Both clubs included younger children's Read-To-Me sections for children too young to read by themselves. Five Hundred sixty-six children participated in the reading clubs.

The Friends of the Library supported the Library through help with and funding for programs, such as, Homebound Book Delivery and guest authors and donations of equipment and materials, such as; step stools, book bags, three magazines on microfilm for a total of twelve years, cassette players, Trivial Pursuit games, and a microwave oven.

Funds for all the donations came from the Friends annual book sale.

The Walpole, Sharon and Norfolk Public Libraries finally reached their goal in fund raising for their resource sharing project titled Computerized Library Information for Patrons. Microcomputers needed for the project will be purchased next year. The libraries are already able to provide their patrons with access to a wider variety of materials through book ex-

changes and coordinated purchasing - without expending any additional money.

In January a group of wonderfully dedicated volunteers turned out for a day to help the staff install detection strips in library materials. In April the book detection system was installed and has been well received by most of our patrons. They appreciate having current magazines on open shelves and finding complete sets of reference materials available when needed. Our loss rate has greatly declined.

The Trustees had two challenges of policy this year - one involving the use of the Common Room and the other a request for removal of a book. In both cases, the Trustees reaffirmed their support for the Library Bill of Rights and the Freedom to Read Statement. They maintained that the Library should be a forum for information and ideas and access should be allowed for all persons.

The East Walpole Book Deposit Center continues to illustrate how much the citizens care about books. The Bird Foundation provides funds for the building and periodicals and a volunteer coordinator. Volunteers provide all the staffing of the facility and programming for area residents. On August 23 an open house was held to Celebrate Reading. Many thanks to Gail Cavuzzo and the other East Walpole volunteers.

In April Louise Hawkins retired after twenty-three years of working at the Library: twenty years as Children's Librarian and three years as Technical Services Librarian. Mrs. Hawkins' contributions were many and her many friends and acquaintances miss her.

Additions to the Library this year included donations of books and periodicals, memorial books, an Audubon Society membership, landscaping and a newspaper filing system. The Walpole Arts Council continues to provide the Library with monthly art displays and programs.

The Library has also become a member of the Old Colony Library Network - a group of fifteen libraries planning to automate circulation functions and create a data base for resource sharing. Funding will be sought through both Federal and local sources.

I would like to thank the Library Staff, Board of Trustees, Town Administration and Friends of the Library for their cooperation and commitment to providing quality library services. Special thanks go to dedicated volunteers Mary Locke, Patricia Howes, Mickey Tobin, Stanley Worth, and Lee Rice. The hours they give make real difference. Thanks also to our library patrons for their helpful suggestions and continued support.

TOWN PLANNING

WALPOLE PLANNING BOARD

The Planning Board meets the first and third Thursdays of the month, and special meetings as required. During calendar 1984, twenty-four meetings were held, plus joint meetings with other Boards and Town officials to discuss items of mutual concern.

The Board reviewed and acted on over 47 Form A plans. Forty-one Board of Appeals cases were reviewed and commented upon. Nineteen public hearings were held. There are currently twenty-one active subdivisions representing over 252 building lots. Subdivisions completed and accepted during 1984 included High Plain Terrace, Summerfield Acres, and Sunny Rock Estates, Section I through IV. Subdivisions commenced during 1984 included Bubbling Brook Estates III, Highlands II, Hitching Post Estates, Lincoln Farm Estates, Townside Lane, Northwood Estates, Sanibal Estates II, Walpole Park South, Lewis Estates, Overlea Estates, Cobble Knoll Estates, South Park, Pilgrim Estates, Cardinal Lane. Subdivisions imminent include the 340-acre Bird/Endean development, McNeil &

Associates 93-lot subdivision in East Walpole, plus several other study plans. The Planning Board also reviewed and offered comments on numerous discussion plans.

During 1984, the Planning Board collected fees of \$11,300.00. The Board also reviewed, held public hearings, recommended to Town Meeting, and reported to the Attorney General on eight rezoning amendments. Included were Neponset Valley Health System's "Residential Care Continuum", the new 1984 Zoning Map, and the Water Resource Protection By-Law. The Planning Board continually reviews the Zoning By-Laws and Planning Board Rules and Regulations for revisions beneficial to the Town of Walpole.

In the May elections, Mr. Roy Fisher and Mr. William Haigh stepped down from the Planning Board; Linda E. O'Brien and Elizabeth R. Nashawaty were elected.

Walpole Planning Board members are: Linda J. DuBois, Chairman; William J. Maloney, Jr., Vice Chairman; Albert C. Miller, Clerk; Linda E. O'Brien, and Elizabeth R. Nashawaty.

PERSONNEL BOARD

The Personnel Board was established in 1954 to administer and enforce a classification and compensation plan for all non-exempt town employees.

In April of 1984, the Personnel Board submitted to Town Meeting recommendations for a revised and updated employee salary schedule for all non-union employees, and funding for merit increases for non-union employees. The Personnel Board continually surveys and collects data for up-to-date salary information.

During 1984, members of the Personnel Board were: Kenneth S. Woodard, Chairman, Daniel J. Bielenin, H. Michael Boyd, John J. Daly, and Francis M. Wall. In July of 1984, Mr. Wallace M. Coburn replaced Mr. Boyd on the Personnel Board.

The Personnel Board approves salary actions on non-union merit increases, promotions, transfers, reclassifications, along with processing union step increases and yearly union increases. The Personnel Board, in 1984, processed over two hundred personnel action requests, in addition to the union increases.

Mr. Francis M. Wall served on the negotiating team for the Library employees' contract. Mr. Daniel J. Bielenin served on the search committees for the new Assistant Town Administrator, Town Engineer, and Director of Public Works.

The Personnel Board traditionally meets on the first and third Mondays of each month, at 7:30 p.m. The Public is invited.

BOARD OF SEWER & WATER COMMISSIONERS

The Board of Sewer & Water Commissioners was established in 1973 by virtue of the "new" Town Charter. This Commission consists of five members elected at large by vote of the registered voters of the Town for three years, overlapping terms such that the term of office of not more than two members shall expire each year.

In May, Edward J. Delaney was re-elected as chairman of the Board, Robert Barrett was reinstated as clerk and remaining members were Patrick Fasanello, Edward Forsberg and William Abbott.

Mr. William L. Richard is the Sewer & Water Superintendent and Mr. Steven Niro, Asst. Superintendent.

The Board of Sewer and Water Commissioners, under the Home Rule Charter, have exclusive charge and control of the water department and water systems. They may establish fountains and hydrants, take by eminent domain or acquire by purchase or otherwise the waters or any portion of any pond, brook, spring, stream, or ground water sources within the limits of the Town for the purpose of establishing or maintaining a water supply system or a water distribution system; may hold all lands, rights of way and other easements necessary for collecting, storing, holding, purifying and treating such water and protecting and preserving the purity thereof and for conveying the same to any part of the Town.

The Board may regulate the use of the water and fix and collect just and equitable prices and rates for the use thereof and shall prescribe the time and manner of payment of such prices and rates; may cooperate or act jointly with any other city or town in the Commonwealth of Massachusetts in carrying out the powers and duties as therein set forth; and may make reasonable rules and regulations in connection with any of the duties and responsibilities herein above set forth.

The Board of Sewer and Water Commissioners have the general responsibility for the installation and maintenance of the sewers, sewage treatment plants and appurtenances,

and drains located in the Town, and in connection with said responsibilities, shall have all the powers reasonably necessary to effectuate same, and may from time to time adopt reasonable rules and regulations. Commissioners shall assign all work and maintenance project to the town administrator for performance.

During the year, the Board handled numerous consumer complaints on Water, Sewer and Drainage, which were resolved.

The Board of Sewer & Water Commissioners was involved in several important projects during the past year which have been completed or are under construction this year.

The School Meadow Brook Aquifer Protection Study, by IEP Inc. was completed.

Commissioners approval amended language on Rules and Regulation of Water Meters.

A Public Hearing of the Massachusetts Cablevision Systems, Inc., requesting permission to install a six foot microwave receiving antenna and a six foot fiberglass dish, ten feet below the top of the Walpole Water standpipe, was held and approved.

Revision to the Regulation of the Water Department were acted upon. A Public Hearing was held June 13, 1984. New rates were made effective July 1, 1984.

Ground breaking ceremony was held on April 23, 1984, on the Eight Million Dollar EPA Sewer Project. The Commission worked with the SEA Consultants on change orders and up-dates on the Main Outfall Sewer Project. Eighty four percent of the job was completed by December. So. Walpole will be done next summer.

It is the number one concern of the Commission to continue to work to improve the quality and supply of the Water System. The systematic Hydrant Flushing Program has had a positive effect on the water quality; we will continue the program to remove sediment from line.

The Board of Sewer & Water Commissioners wish to extend their appreciation to Town officials for their cooperation and assistance throughout the year.

HOUSING AUTHORITY

The Walpole Housing Authority increased its housing subsidies for eligible persons in the year 1984 substantially, from a year end total in 1983 of 172 units, to 203 units available at the close of 1984. The substantial increase was in the areas of family housing, as in January, 1984, the Authority began efforts to secure an award from the Commonwealth for family housing construction, in answer to an appeal from the Town of Walpole responding to an Executive Order from the Commonwealth. An application was filed in the first round of funding in April, and in May the Housing Authority was notified that it had been selected to receive an award of \$780,000. to begin development of twelve units of family housing in the form of six duplexes. Each duplex will contain a three bedroom unit and one two bedroom unit, to house families in Walpole of low income. This award was made under state Chapter 705 - Family Housing Construction.

In July of '84. Architect Gary Lowe was selected to design and build the new family housing, and the site study began. After various sites were reviewed, the office of Communities and Development recommended the land owned by the Town of Walpole between Stone and Ellis Streets. Town Meeting action approved the transfer of this parcel to the Housing Authority, and surveying and engineering has been under way. Groundbreaking for the new family housing is expected in late summer or early autumn, 1985.

The Authority owns and administers 118 units of elderly housing, with two developments in Walpole. A Modernization and Renovation grant was secured for repairs and weatherization

for Neponset View Terrace, a complex of 64 apartments built in 1970-71. Work has been underway in weatherstripping, addition of attic insulation, floor repair, replacement of corridor lighting, new fencing, landscaping work, and apartment renovation. The apartment renovation program is ongoing, and spring of 1985 will see road improvements and additional landscaping, along with exterior painting.

The second elderly development at Diamond Pond Terrace, completed in 1982, with passive solar construction throughout, has more than met the expectations of the Authority in its comfort for tenants, beauty in surroundings, and conservation of energy. Diamond Pond Terrace is of townhouse construction, containing 54 elderly and handicap apartments.

In other areas of family housing, additional units of subsidy were secured from the state in the Chapter 707 Program, bringing the total of 13 units for subsidy in private apartments for eligible families who qualify.

An additional award was made by the Department of Housing and Urban Development, in the granting to Walpole Housing Authority of an additional 20 units of family housing under the Section 8 Existing Housing Program, bringing this total of available subsidies to 60. Under this program, eligible persons can secure their housing in the Community from private stock, and the subsidy covers the balance of the rent to the landlord. In this program, persons are required to pay 30% of their adjusted income towards the rent, with the balance paid by the HUD subsidy. Contracts for this additional award will be processed early in 1985, with subsidies available by April, 1985.

FINANCES

TOWN TREASURER

The fundamental duty of the Town Treasurer is to take charge of all Town funds. These funds come from several sources, such as taxation, charges, fees, federal and state grants.

During the year, the Treasurer's office handles over fifty million dollars. This office is one of the highly complex Town departments, maintaining numerous accounts and extensive records covering such areas as borrowing, bonding, investments, tax titles, cemeteries, trust funds, payroll and all deductions for same, reconciling and disbursing accounts payable.

Several times during the year when receipts cannot meet expenses, the Treasurer has to borrow in anticipation of tax revenues. This fiscal year the Treasurer had to borrow 1,000,000 in anticipation of taxes.

During this fiscal year monies available to me were 95% invested, resulting in a thirty-six cent reduction in the tax rate.

FINANCE COMMITTEE

The Finance Committee, comprised of 15 members appointed by the Town Moderator to serve a three year term, is one of the most active and interesting committees serving the voters of the Town of Walpole.

The degree of activity is almost mind boggling when you consider that as a full committee and/or subcommittees we make recommendations on all budgets and all articles on the warrant for the spring and fall Town Meetings as well as special meetings.

It is not uncommon for the Finance Committee to expend thousands of man hours in the process of deliberation for the purposes of providing recommendations to the Town Meeting Members.

All chairmen consider the responsibility in a different light. The present chairman considers the Finance Committee to be an extension of the Town Meeting and the body to whom Town Meeting turns and expects study in detail on complicated aspects of not only budget matters but warrants and related articles.

While operating under the constraints of Proposition 2½, the Finance Committee attempts to balance the budget process while providing for continued capital improvements. This often necessitates difficult financial decisions void of natural emotional response - and this is as it should be.

Town Meeting can, and should, expect a knowledgeable, forceful, well documented Finance Committee in order that they may not be needlessly tied up with the more minute/complicated aspects of a particular item.

The Finance Committee typically holds its meetings on Monday and Thursday and must hold by law a public hearing prior to the Spring Town Meeting. These meetings are open to the public, and your participation and involvement both at a committee level and at a meeting level is highly recommended and encouraged.

BOARD OF ASSESSORS

The Fiscal Year 1985 tax billing cycle produced the real estate tax bills on a timely basis as a result of a normal updating procedure required by the Bureau of Local Assessment. The total taxes levied including real and personal property amounted to \$12,038,965., representing a substantial increase of \$292,000 in revenue.

In compliance with a state directive it will be necessary to conduct a town wide revaluation for Fiscal Year 1987, which entails appropria-

tions of monies to hire a professional appraisal firm to perform this work. It is essential that our conversion to the new computer system be operational in the very near future as time is an important factor in preparing records for the tax bills.

Our present Board is staffed with Peter L. Turco as Chairman and Robert A. Cobb and Gerard E. Comeau as members.

TOWN COLLECTOR

The office of the collector was run as in years past with emphasis on communication between the office and the taxpayer as the best means of resolving problems that may have arisen or a method of informing the taxpayer of changes in procedures.

The office is mandated by state statute as to their procedures and although the state

issues these laws, it is up to the town to educate and inform the taxpayer of the changes and to enforce them. Although the office may send notices and publish periodicals pertaining to such changes in the law, and advise the taxpayer through the local newspapers, the collector's office cannot force the taxpayer to read such material. It is then, by state law, that the tax-

payer seek out his or her tax liabilities. The Town Collector is responsible for the collections of all monies due the town and to turn such monies over to the Town Treasurer.

The collections of taxes and revenues for the Town of Walpole are committed by the assessors or other town departments (e.g. Water Dept., Polic, Ambulance). The collector can only collect monies due on a bill and advise a taxpayer as to where to find answers to a question on a bill sent from his office.

Real Estate Tax and Motor Vehicle Excise questions are directed to the Board of Assessors. Water and Sewer questions are directed to the Water and Sewer Commissioners. Questions arising because of Taxes in Tax Title

are directed to the Town Treasurer. There are also other departments involved in billing and the taxpayer. If you have a question, please do not hesitate to seek assistance from my office.

I have stressed the importance of modernizing the office with computer terminals and outside services in order to expedite the collections and turnovers to the Town Treasurer.

The town has purchased an inhouse computer and hopefully before the end of Fiscal Year June 30, 1985 all programs will be installed for the Collector's office.

The town had hired an auditing firm to audit the books and as of June 30, 1984, the following balances were reported by the Town Accountant.

Major Committed Accounts Due The Town of Walpole

| F/Y Ending | Committed To Collect | Real Estate Taxes | | |
|---------------|-------------------------|-------------------|----------------------------------|-----------------------|
| | | Balance 7-1-83 | Collected/Abated as of 7-1-84 | Balance Due 7-1-84 |

| Total major monies due Town of Walpole 6/30/84 | | | | \$1,224,656.97 |

The preceding information represents:

6,400 parcels of Real Estate and approximately 16,500 bills and demands mailed;

18,300 Motor Vehicle bills representing approx. 22,900 bills and demands mailed;

250 Personal Property tax accounts representing approx. 600 bills and demands mailed.

All of these total approx. 40,000 individual bills mailed from the collector's office.

**Summary of Town Collector's Budget
(Actual 6/30/84)**

| | |
|-------------------------------------------------------|-----------------|
| Salaries: | |
| Town Collector | \$ 9,900.00 |
| 2½ Full-time employees | 33,144.00 |
| 2 Part-time employees | <u>6,626.00</u> |
| Total Salaries | \$49,670.00 |
| Expenses: | |
| Legal | \$ 2,500.00 |
| Postage | 6,300.00 |
| Other services, Office Supplies | <u>7,700.00</u> |
| Total Actual Cost of Collector's Office: | \$66,170.00 |
| or 0.563% of total revenue of | \$11,747,665.00 |
| raised by Real Estate and Personal Property Taxes. | |

This represents a cost of approximately \$1.65 for each bill mailed, and processed thru this office for Real Estate, Personal Property and Motor Vehicle Excise.

SELF-HELP, INCORPORATED

Self Help, Inc., is Greater Brockton's and Attleboro's anti-poverty agency dedicated to improving the quality of life of limited-income individuals and families, and making all segments of the community responsive to the needs of limited-income, disadvantaged and minority needs.

During the program year ending September 30, 1984, Self Help, Inc., received a total funding of \$12,006,267 and provided 578,338 direct services to the area's limited-income individuals and families.

WALPOLE residents received 1,693 direct services totaling \$161,229 during our program year.

The total funding of \$12 million does not tell the real value of human services delivered to the

area as a whole. Self Help's funding enabled us to mobilize an additional \$954,823 of other community resources such as PIC, Commonwealth Service Corps and local Cities and Towns contributions as well as volunteers. The gross volume of Self Help, Inc., during the past program year was \$12.9 million.

Self Help currently employs 253 individuals, many of whom are limited income and minorities.

We feel that the program year 10/1/83 to 9/30/84 was a successful one for Self Help, Inc., and very helpful to our limited-income population. We thank the area's Board of Selectmen and town volunteers for helping to make our program a success.

GROSS SALARIES, TOWN EMPLOYEES

Printed below are the gross salaries of town employees who earned more than \$500 in 1984. The information was obtained from the treasurer's computer run and should be accurate. We

would like to stress that these are not necessarily straight time earnings and may include overtime, stipends for extra duties, and in some cases, income from more than one department.

**COMMONWEALTH OF MASSACHUSETTS
TOWN OF WALPOLE
ANNUAL TOWN MEETING
(SPRING SESSION)
APRIL 2, 1984**

Norfolk,ss.

Pursuant to the foregoing warrant of April 2, 1984, the Spring Session of the Annual Town Meeting was called to order at 7:35 PM by Moderator Robert B. Boyd.

The Assembly pledged allegiance to the Flag.

Town Clerk, Louis E. Hoegler, attested to proper return of the warrant.

It was Moved, Seconded and

VOTED:

To waive the reading of the warrant.

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That all Motions of the Finance Committee be Main Motions.

The Moderator declared a recess at 7:40 PM.

Acting Town Administrator, James Merriam, conducted a public hearing on Revenue Sharing.

The Moderator reconvened the meeting at 7:45 PM.

ARTICLE 1

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That the Town authorize the Treasurer, with the approval of the Selectmen, to borrow in anticipation of the revenue for the twelve month period beginning July 1, 1984 in accordance with General Laws, Chapter 44, Section 4, and acts in amendment thereof, and including in addition thereto, Chapter 849 of the Acts of 1969 as amended and to renew any note or notes as may be given for a period of less than one year in accordance with General Laws, Chapter 44, Section 17.

ARTICLE 2

E. John Ferrara, Chairman reported for the Representative Town Meeting Rules Committee.

The following Resolution was offered by Ernest A. Manocchio, Jr., Precinct 6 RTM Member:

RESOLUTION:

The membership of Representative Town Meeting is concerned with the vacancy in the position of Town Administrator and further is aware of the selection process that the Board of Selectmen have been involved in attempting to fill said position without success.

Mr. James Merriam has served the town with complete dedication and professionalism for the past six years as Assistant Town Administrator and on at least two extended occasions as Interim Administrator.

The Finance Committee has publicly lauded Mr. Merriam for the able and professional assistance he has given them in the preparation for this Annual Town Meeting. Many other citizens have expressed the opinion that Mr. Merriam is a capable administrator and worthy of selection to this vacant position.

This meeting therefore urges the Board of Selectmen to appoint Mr. James Merriam Town Administrator for the Town of Walpole.

Moderator did not declare a vote.

ARTICLE 3

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That the Town raise and appropriate from taxation the sum of \$7,8000 to engage a Certified Public Accountant or firm of accountants to audit all the accounts of the Town in accordance with Article VI, Section 10-B of the Walpole Home Rule Charter.

ARTICEL 4

On Motion of the Finance Committee.
It was Moved. Seconded and
VOTED:

That the Town take NO ACTION.

ARTICLE 5

On Motion of the Finance Committee,
It was Moved, Seconded and
VOTED:

That the Town approve the new Salary Schedule as recommended by the Personnel Board with the stipulation that there be NO OVERTIME ON THIS SCHEDULE.

Louis E. Hoegler
Town Clerk

**OFFICE OF THE TOWN CLERK
TOWN HALL
RECOUNT OF JUNE 6, 1984**

The following is the statement appearing on the petition for recount filed with this office in the interest of Edwin J. Ryan, Jr., a write-in candidate for Town Meeting Representative in Precinct 2, in the May 5, 1984 Town Election.

"Three of the undersigned voters stated that each of them wrote in the name "Edwin J. Ryan, Jr., 5 Juniper Circle" for the seventh available and uncontested position for Representative Town Meeting Member, Precinct 2, and placed an "X" in the appropriate box next to his name. Published reports in the Walpole Times of May 10, 1984 indicated that two other candidates are tied for this position with two votes each. There is no acknowledgment of the three votes cast for Edwin J. Ryan, Jr., the uncontested winner of the seventh available position of RTM in Precinct 2.

S/ Edwin J. Ryan, Jr., Helen K. Ryan, Edwin J. Ryan, Robert Ryan, Mary L. Ryan, Marcia A. Barry, David P. Barry, Marjorie Yates, Howard J. Yates, Doris L. Stearns, Frederick P. Stearns, Edgar M. Grout and Dagmar C. Grout."

In compliance with Chapter 54, Section 135 the following actions were taken.

A meeting of the Board of Registrars was held on May 18, 1984 at 8:00 PM in the Town Clerk's office. Present were Charles M. Boothby, George B. Delaney, Gene M. Farrell and Louis E. Hoegler.

The thirteen signatures on the recount petition were certified as qualified voters in Precinct 2.

It was voted to appoint James Manninen as Warden and Tally Clerk and to appoint Joanne Damish, Elaine Platukis, Jeffrey Mattson, Joseph Wissman, Mary Robinson, and Martha E. Fowle as Clerks.

The following letter was sent by certified mail to all who had received votes as Representative Town Meeting Members in Precinct 2: Robert J. Bruno, Michael Jalkut, Thomas Jalkut, Thomas J. Coughlin, George E. Seavey, James A. Cappelletti, Edwin J. Ryan, Jr., Joseph R. Maiewski, John O'Leary, Charles Mock, James P. Ginley, Louis Rosano, Russell W. Olson, Barbara Hill and Janet Fasanello.

"May 24, 1984

Dear Candidate:

In accordance with Chapter 54, Section 135 of the Massachusetts General Laws, you are hereby notified that there will be a recount of votes for the office of Representative Town Meeting Member in Precinct 2 on Wednesday, June 6, 1984 in the Senior Citizens' Meeting Room in the Town Hall at 7:30 PM.

You are further notified that you are entitled to three observers and legal counsel. The names and addresses of the Registrars of Voters not later than 12:00 o'clock noon on Monday, June 4, 1984 in order to participate in the recount."

In response to the above letter, the following letter dated June 3, 1984 was received by the Town Clerk.

"Dear Mr. Hoegler:

In response to your letter of May 24, 1984, the following three
observers will be present at the recount of votes for the office of Representative Town Meeting Member
in Precinct 2 on June 6, 1984."

S/ Edwin J. Ryan, Jr., 5 Juniper Circle, Edwin J. Ryan, 5 Juniper Circle, Howard J. Yates, 115 Peach Street.

Results of the recount follows:

| | |
|------------------------|------------|
| * James A. Cappelletti | 199 |
| *Janet M. Fasanello | 209 |
| *Charles P. Mock | 200 |
| *Russell W. Olson | 192 |
| *James P. Ginley | 214 |
| *George Seavey | 212 |
| Edward Madden | 1 |
| Joseph Maiewski | 2 |
| Barbara Hill | 1 |
| John O'Leary | 1 |
| Louis Rosano | 1 |
| Thomas Jalkut | 1 |
| Mary Ann Jalkut | 1 |
| Robert Bruno | 1 |
| *Edward Ryan, Jr. | 3 |
| Thomas Coughlin | 2 |
| Blanks | <u>832</u> |
| Total | 2072 |

In accordance with Chapter 54, Section 135 we declare that Edwin J. Ryan, Jr. is the successful candidate for the seventh slot as Representative Town Meeting Member in Precinct 2 for a three year term.

On 2/3 Vote Required,
It was Moved, Seconded and
VOTED:

That the Town amend its Zoning By-Laws to the following extent:

1. By adding the following to Section 1-C: Definitions:

“14. Residential Care Continuum — A campus type development of facilities to provide a continuum of residential alternatives for the aged, chronically ill or disabled: with the particular goal of assisting them better to cope with their particular limitations and to lead a productive existence, through the provision of appropriate care, rehabilitation, psychological counseling and educational programs. Such a development may include any combination of the following but must include a skilled nursing facility and either an assisted-living facility or an independent living facility as defined in subparagraphs (a), (b), and (c):

- (a) a skilled nursing facility including ancillary support and rehabilitation services, including but not limited to: and adult day care or respite facility to provide short-term custodial care to individuals with special needs; food service; social psychological and educational programs; twenty-four hour supervision; and nursing care as appropriate, all with the purpose of assisting the individual to continue to develop and to overcome the limitations imposed by his or her condition, and providing the individual's family or other care-giver a respite from the provision of such care;
- (b) a congregate housing or assisted-living facility, providing a sheltered living environment for the aged, chronically ill, or disabled including such services as: housekeeping; cooking and common dining; social, psychological and educational programs; assistance with personal needs; and crisis intervention, all with the purpose of assisting each resident to continue to develop and to lead a productive and fulfilling life;
- (c) independent living facilities providing private living and dining accommodations to persons fifty-five (55) years of age or older, also including common areas and the provision of social, psychological, and educational programs and crisis intervention as needed, all with the purpose of providing an environment in which older persons can continue to derive the personal and psychological benefits of independent living while also enjoying the substantial social and educational benefits of community living.
- (d) home health care facilities serving as a base for the provision of medical, nutritional, social, psychological and educational services for the aged, chronically ill or disabled.
- (e) multi-purpose facilities for resident and non-resident senior citizens, which may include social, educational, wellness, counseling, recreational, outreach and other activities.
- (f) facilities for the provision of ancillary services to residents of the development, which may include but are not limited to a beauty parlor/barber shop, convenience store, ice cream parlor, bank, exercise center and other such services provided that such services shall be available only to residents, their guests and employees and not to members of the general public.

2. By renumbering paragraphs 14, 15, and 16 of Section 1-C as numbers 15, 16 and 17, respectively.

3. By adding the following to Section 3-B-1: Public, Semi-Public, Institutional:

“r.” Residential care continuum provided that:

- i. All of the facilities are connected or are to be connected with public sewer system at the time of construction;
- ii. the campus shall be located on a parcel having an area if at least twenty-five (25) acres;
- iii. in determining the number of dwelling units allowed in an independent living facility, seven thousand (7,000) square feet of land shall be provided for each unit;
- iv. a one hundred (100) foot buffer zone shall be required where the property abuts on other residential uses;

4. By adding the code letter “p” following the Maximum Building Height Designation for the Residence B District in Section

4-B **Schedule of Dimensional Regulations.** Further by adding to the Explanatory Notes to Schedule of Dimensional Regulations the following:

"p. Except that a residential care continuum may be determined by "k" (above)."

5. By adding the following to Section 4-C-4: **Number of Buildings Per Lot in Residential Districts:**

Notwithstanding the foregoing, in a residential care continuum more than one (1) but no more than eight (8) buildings may be located on each lot. The Board of Appeals may be special permit (SP¹ under 3-B-7° allow more than eight (8) buildings on a lot where the applicant has also shown that the design and placement of the buildings will be in harmony with the general character of the neighborhood, and that the project's needs may not be adequately met with fewer buildings."

6. By adding the following to Section 4-D-1: **Buffer Zone:**

Notwithstanding the foregoing, the buffer zone for a residential care continuum shall be a minimum of one hundred (100) feet and shall not be required to be in addition to the required setback, sideyard or rear yard."

7. By adding the following to Section 5-A: **Required Spaces:**

"2. For all residential care continuums the aggregate of:

- i. one (1) space for each dwelling unit in any independent living facility (Section 1-C-14-C);
- ii. one (1) space for each residential unit in any assisted living facility (Section 1-C-14-B); and
- iii. one (1) space for each two (2) beds in any skilled nursing facility (Section 1-C-14-A).

The number of spaces determined by the use of this formula shall be deemed presumptively adequate to accommodate under all normal conditions the care of all residents, employees, guests and any service or business visitors to the premises."

8. By renumbering paragraphs 2 through 8 of Section 5-A as numbers 3 through 9 respectively.

Louis E. Hoegler
Town Clerk

**COMMONWEALTH OF MASSACHUSETTS
TOWN OF WALPOLE
ADJOURNED ANNUAL TOWN MEETING
OCTOBER 24, 1984**

Norfolk, ss.

Pursuant to the foregoing adjournment of October 22, 1984, the Fall Session of the Adjourned Annual Town Meeting was called to order at 7:35 PM by Moderator Robert B. Boyd. All rules and regulations concerning the call of an adjourned Town Meeting were fulfilled and a quorum was present.

The Assembly Pledged Allegiance to the Flag.

The following Tellers were appointed: William McAdams and Louis Coburn.

On Motion of Elizabeth Nashawaty, RTM, Pct 4,

It was Moved and Seconded:

That the zoning articles 12, 24 thru 28 and 35 be taken up at the beginning of the evening.

Motion was: DEFEATED

ARTICLE 9

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That the Town raise and appropriate by transfer from Free Cash the sum of \$15,000 to repair and paint the Water Department standpipe on Davis Street and perform other related standpipe maintenance.

ARTICLE 11

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That the Town raise and appropriate by transfer from Free Cash the sum of \$23,075 to make improvements to the storm drain and appurtenances in the Adams Road/Main Street area.

ARTICLE 12

On Motion of the Finance Committee,

It was Moved, Seconded and

VOTED:

That the Town amend its Zoning By-Laws by adopting an Aquifer Protection Overlay District:

AMEND Section 2 by deleting paragraphs 2A and 2B and inserting the following new paragraphs 2A and 2B, and adding a new subparagraph 6 at the end of paragraph 2-C, add to Section 2D - and Water Resource Protection District, and add a new Section 10 entitled Water Resource Protection Overlay District.

2A Establishment of Districts, Types of Districts, and Order of Restriction

The Town of Walpole shall be divided into three types of zoning districts, including ten separate zoning districts listed in their order of restrictiveness beginning with the most restrictive, as follows:

- Type 1 Special Purpose Districts
 - W - Water Protection
 - FP - Flood Plain District
- Type 2 Residence Districts
 - RA - Residence A District
 - RB - Residence B District
 - GR - General Residence District
- Type 3 Non Residence Districts
 - B - Business District
 - CBD - Central Business District
 - LM - Limited Manufacturing District
 - I - Industrial District

2B Location of Districts

The locations, boundaries and zone designations of the Water Resource Overlay Protection District are shown on an overlay map entitled "Water Resource Overlay Protection District Map" for the Town of Walpole dated January 1984.

Residence and Non-Residence Districts R, RA, RB, GR, B, CBD, LM and I are located as shown on the Zoning District Map of the Town of Walpole, Mass. dated January 1956 and filed with the Town Clerk; which map together with all explanatory matter thereon and subsequent amendments shall be deemed to accompany, be and is hereby made a part of this by-law.

SECTION 10

WATER RESOURCE PROTECTION OVERLAY DISTRICT

A. PURPOSES

1. To protect, preserve and maintain the existing and potential groundwater supply within the known aquifers of the Town.
2. To preserve and protect present and potential sources of water supply for the public health and safety.
3. To conserve the natural resources of the Town.

B. SPECIAL DEFINITIONS. The following definitions apply to specialized words and terms associated with this District.

1. **Aquifer:** Geologic formation composed of rock or sand and gravel that contains significant amounts of potentially producible potable water.
2. **AREA OF Influence:** The area which experiences drawdown by a pumping well as plotted on a 2 dimensional map surface.
3. **Cone-of Depression:** A 3 dimensional conical concavity produced in a water table by a pumping well.
4. **Glaciofluvial:** Pertaining to an unconsolidated geologic deposit which was formed by, or in association with glacial meltwater streams, typically resulting in the deposition of sand and gravel-sized particles.
5. **Glacofluvial/lacustrine:** Pertaining to an unconsolidated geologic deposit which was formed by, or in association with the transition zone where glacial meltwater streams flowed into a glacial lake environment, typically resulting in the deposition of sand, silt and clay sized particle in a fining downward sequence. Reference to such deposits within this by-law refer to the more coarse-grained sediments such as would be associated with a delta.
6. **Glaciolacustrine:** Pertaining to an unconsolidated geologic deposit which was formed by, or in association with a glacial lake environment, typically resulting in the deposition of sand, silt and clay sized particles. References to such deposits within this bylaw refer to the fine-grained sediments such as would be associated with lake bottom deposits.
7. **Governing Water District** - The person or persons responsible for the daily operation and maintenance of the town water supplies.
8. **Groundwater** - The subsurface present in aquifers and recharge areas.
9. **Impervious Surface** - Material on the ground that does not allow significant amount of surface water to penetrate into the soil.
10. **Leachable Wastes** - Waste materials including solid wastes, sludge and agricultural wastes that are capable of releasing water-borne contaminants to the surrounding environment.
11. **Mining of Land** - The removal of geologic materials such as topsoil, sand and gravel, metallic ores or bedrock.
12. **Primary Recharge Areas** - Areas that collect precipitation or surface water and directly transmit it to aquifers or areas of pumping influence.
13. **Process Wastes** - Nondomestic, nontoxic, nonhazardous, liquid or solid waste by-products associated with the manufacture or preparation of a product, including but not limited to hardware, dry goods, foodstuffs and printed material.

14. **Sanitary Wastes** - Wastewaters arising from ordinary domestic water use as from toilets, sinks and bathing facilities, and containing such concentrations and types of pollutants as to be considered normal wastes. For purposes of this by-law, all references to disposable volume(s) of sanitary wastes refer to design standards as outlined in Title V of the State Environmental Code.
15. **Saturated Thickness** - The depth of permeable soil actually saturated with water to the capacity of the soil to contain water under normal conditions of temperature and pressure.
16. **Secondary Recharge Areas** - Areas that collect precipitation or surface water and indirectly transmit it to aquifers or areas of pumping influence.
17. **Solid Wastes** - Any discarded solid material, putrescible or non putrescible, consisting of all combustible and noncombustible solid material including, but not limited to, garbage and rubbish.
18. **Stratified Drift Recharge Areas** - Areas composed of Permeable, porous materials that collect precipitation or surface water and transmit it to aquifers.
19. **Till Recharge Areas** - Areas composed of low permeability materials that collect and transmit precipitation primarily via surface water runoff to adjacent aquifers.
20. **Toxic or Hazardous Materials** - Any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant actual or potential hazard to water supplies or other hazard to human health, if such substance or mixture were discharged to land or waters of this town. Toxic or hazardous materials include, without limitation, organic chemicals, petroleum, heavy metals, radio active or infectious wastes, acids and alkalines and include products such as pesticides, herbicides, solvents and thinners.
21. **Transmissivity** - The rate at which water is transmitted through a geologic unit measured.
22. **Wetlands** - As defined by M.G.L. Ch131, S40. Also refer to Section 3.2 of this by-law.

C. ESTABLISHMENT AND DELINEATION OF WATER RESOURCE PROTECTION OVERLAY DISTRICT.

1. For the purpose of this district, there are hereby established within the town, certain aquifer protection areas consisting of aquifers, well pumping areas and aquifer recharge areas. These areas are determined by standard geologic and hydrologic investigations which may include drilling observation wells, utilizing existing boring data and stratigraphic profiles, conducting seismic surveys or other geophysical techniques, performing pumping tests, water sampling, geologic mapping and computer modelling.
2. The boundaries of this district are delineated on maps at a scale of 1" = 800' entitled "Water Resource Protection Overlay District, Town of Walpole, Mass. on file in the office of the Town Clerk, which maps are hereby made part of this by-law. These boundaries reflect the best hydrogeologic information available as of the date of the maps. In the event of a discrepancy between the map and the criteria of Areas 1, 2, 3 and 4 below, the criteria shall control.
3. Where the bounds as delineated are in doubt or in dispute, the burden of proof shall be upon the owner(s) of the land in question to show where they should properly be located. At the request of the owner(s) the town may engage a professional geologist to determine more accurately the location and extent of the water resource protection areas and may charge the owner(s) for all or part of the cost of the investigation.
4. The Water Resource Protection District includes the aquifer's significant areas of recharge consisting of:
 - a) **Area 1** - Area of pumping influence of all existing wells within the Town. Confirmed by long-term pump test or by stabilized water levels after maximum duration pumping.
 - 1) The cones-of-depression and respective areas of influence and recharge generated by the municipal wells after at least ninety (90) days of continuous pumping at their respective rated capacities or after long-term pumping at their currently utilized capacities or after long-term pumping at their currently utilized capacities (may be based upon computer modelling).
 - b) **Area 2** - Potential Water Supply Area.
 - 1) Buried river valley stratified drift deposits with less than 40-foot thickness.

c) **Area 3 - Primary Recharge Area.**

- 1) Upgradient areas consisting of till and other materials which contribute groundwater or surface water drainage to Areas 1, 2 or 3.

d) **Area 4 - Secondary Recharge Area.**

- 1) Upgradient areas consisting of till and other materials which contribute groundwater or surface water drainage to Areas 1, 2 or 3.

D. USE REGULATIONS. The Water Resource Protection Overlay District shall be considered as overlaying her zoning districts. Any uses permitted in the portions of the underlying districts shall be permitted subject to all the provisions of this district.

Within the Water Resource Protection Overlay District these regulations shall apply:

1. The following uses are permitted within the Water Resource Protection Overlay District provided that all necessary permits, orders, or approvals required by local, state or federal law shall have been obtained.

a) **Areas 1 and 2.**

1. Conservation of soil, water, plants and wildlife;
2. Outdoor recreation, nature study, boating, fishing and hunting where otherwise legally permitted;
3. Landings, foot, bicycle and/or horse paths and bridges;
4. Proper operation and maintenance of existing dams, splash boards, and other water control, supply and conservation devices;
5. Nonintensive agricultural uses; pasture, light grazing, hay, gardening, nursery conservation, forestry and harvesting provided that fertilizers, herbicides, pesticides and other leachable materials are not stored outdoors or in any other manner which would permit leakage thereof;
6. Necessary public utilities/facilities designed so as to prevent contamination of groundwater;
7. Residential development of single family dwellings on lots of at least 80,000 square feet in area, such that no more than 5% of the building lot is rendered impervious and on-site domestic sewage disposal does not exceed 55 gallons per day per 20,000 square feet of lot area; and
8. Multifamily housing, such that no more than 10% of the building lot is rendered impervious.

b) **Areas 3 & 4.**

- 1) All uses permitted in Areas 1 and 2 above, and the following uses to the extent permitted in the underlying district; and
- 2) Commercial development limited to retail shopping, business or professional office or industrial development limited to storage of non-toxic, non-hazardous materials on lots of at least 40,000 square feet in area such that no more than 40% of the building lot is rendered impervious; roof, parking and drive runoff discharged to oil-gas trap catch basins with appropriate sumps prior to recharge; and on site sewage disposal is less than or equal to 110 gallons per day per 10,000 square feet of lot area.

2. The following uses are prohibited:

a) **Areas 1 and 2.**

1. Land uses resulting in the disposal of any waste material, solid or liquid, other than domestic sanitary wastes;
2. Any use involving the sale, storage, transportation of fuel, oil or gasoline;
3. Uses which, as part of normal operating or maintenance procedures, would involve the application, transfer, storage, or use of toxic or hazardous materials in greater than household quantities;
4. The commercial mining of land; and
5. Dumping of snow brought in from outside Areas 1 and 2.

b) **Areas 3 and 4.**

1. Disposal of solid wastes, other than brush and stumps;
2. The disposal of liquid or leachable wastes other than sanitary domestic wastes or innocuous process wastes;
3. Uncovered storage of road salt or deicing chemicals;

4. Automotive and boat service and repair shops, junk and salvage yards;
 5. Car washes;
 6. Dry-cleaning establishments;
 7. Metal plating or etching;
 8. Chemical and bacteriological laboratories;
 9. The commercial mining of land to an elevation of less than 10 feet above the maximum high water table as established by a monitoring program of groundwater levels in observation wells installed at the owner's expense by a professional geologist, hydrogeologist or engineer in the proposed location of mining;
 10. Any other use which involves as a principal or accessory activity, the manufacture, storage, use, transportation or disposal of toxic or hazardous materials.
3. The following uses are permitted only under the terms of a special permit issued by the Board of Appeals.
- a) Areas 1 and 2.
 1. Expansion of existing nonconforming uses; and
 2. Uses calling for greater impervious cover than prescribed in Sections D.1.a. 7 & 8 provided that plan calls for an on-site method of recharging proposed increases in runoff waters.
4. Procedures of Issuance of Special Permit
- a) Each application for a special permit shall include:
 1. A complete list of all chemicals, pesticides, fuels, and other potentially toxic or hazardous materials to be used or stored on the premises in quantities greater than those associated with normal household use, accompanied by a description of measures proposed to protect all storage containers/facilities from vandalism, corrosion and leakage, and to provide for control of spills;
 2. A description of potentially toxic or hazardous wastes to be generated, indicating storage and disposal methods;
 3. Evidence of approval by the Massachusetts Department of Environmental Quality Engineering (DEQE) of any industrial waste treatment or disposal system or any wastewater treatment system over 15,000 gallons per day capacity;
 4. For underground storage of toxic or hazardous materials, evidence of qualified professional supervision of system design and installation;
 5. Analysis by a technically qualified expert certifying that the integrity of the underlying groundwater resources will not be degraded to the point whereby a hazard to public health or significant ecological damage results.
 - b) Each application for a special permit shall be filed with the Town Clerk for transmittal to the Zoning Board of Appeals and shall be accompanied by 9 copies of the plan. Such plans shall be drawn in accordance with Section 3CA and b and Section 7A.
 - c) Upon receipt of the special permit application, The Town Clerk shall transmit one copy each to the Board of Health, Board of Selectmen, Building Inspector, Conservation Commission, Planning Board, Sewer & Water Commissioners & Fire Chief for their written recommendations. Failure to respond in writing to the Clerk of the Zoning Board of Appeals within 45 days shall indicate approval by said agencies. The Board of Appeals shall explain any departures from the recommendations of the other town agencies in its decision.
 - d) The ZBA shall hold a hearing in conformity with the provisions of M.G.L. Ch. 40A, S9 within 65 days after the filing of the application with the special permit granting authority and after the review of the aforementioned town bodies.
 Notice of the public hearing shall be given by publication and posting and by first-class mailings to "parties of interest" as defined in M.G.L. Ch. 40A S11. The decision of the SBA and any extension, modification or renewal thereof shall be filed with the special permit granting authority and Town Clerk within 90 days following the closing of the public hearing. Failure of the special permit granting authority to act within 90 days shall be deemed as a granting of the permit. However, no work shall commence until a certification is recorded as required by said S11.

- e) After notice and public hearing and after coordinating, clarifying and weighing the comments and recommendations of the Board of Health, Board of Selectmen, Building Inspector, Planning Board, Sewer & Water Commissioners, the ZBA may grant such a special permit provided that it finds that the proposed use:
1. Meets the purpose and intent of this bylaw and will not materially adversely affect the purpose of the Water Resource Protection Overlay District;
 2. Will not, during construction or thereafter, have an adverse environmental impact on any aquifer or recharge area in the town; and
 3. Will not adversely affect an existing or potential water supply.

ARTICLE 17

On Motion of the Finance Committee,
It was Moved, Seconded and
VOTED:

That the Town adopt under Article XV of the By Laws of the Town of Walpole, the following: Fire Lanes
- Leaving of Vehicle in Certain Private Ways

- a) **FIRE REGULATIONS:** It shall be unlawful to obstruct or block a private way with a vehicle or any other means so as to prevent access by fire apparatus or equipment to any multiple family building, stores, shopping centers, schools and places of public assembly.
- b) **FIRE LANES:** It shall be unlawful to obstruct or park a vehicle in any Fire Lane, such Fire Lanes to be designated to be a distance of twelve (12) feet from the curbing of a sidewalk in a shopping center, apartment complexes and similar locations. Where no sidewalk with curbing exists, the distance and location shall be established by the Head of the Fire Department.
- c) Any object or vehicle obstructing or blocking any Fire Lane may be removed or towed by the Town under the direction of a Police Officer at the expense of the owner and without liability to the Town of Walpole.
- d) The owner of record of any building affected by these sections shall provide and install signs and road markings as provided in Paragraph b) of this section. Said signs shall be no less than 12" x 18" and shall read:
 "Fire Lane - No Parking - Tow Zone".
- e) Any person violating any of the foregoing section, may, for each offense, be punished by a fine of twenty dollars (\$20.00). Each day that such violation continues shall constitute a separate offense.
- f) The leaving of vehicles unattended is prohibited within the limits of private ways under the jurisdiction of the Walpole Housing Authority which furnish means of access for fire apparatus to any building. (Petition of the Fire Chief).

ARTICLE 18

On Motion of the Finance Committee,
It was Moved, Seconded and
VOTED:

That the Town accept Chapter 644 of the Acts of 1981, "An Act authorizing Municipalities to regulate parking areas for the vehicles of Disabled Veterans or Handicapped Person" By-Law as follows:

Section 1. Requirement for Handicapped Parking Spaces

No person shall park a motor vehicle, motor cycle or like means of transportation in a designated parking space that is reserved for vehicles owned and operated by disabled veterans or by handicapped persons unless said vehicle bears the distinctive number plates authorized by Section Two of Chapter 90 of the General Laws. Any person or body that has lawful control of a public or private way or improved or enclosed property used as off-street parking areas for businesses, shopping malls, theaters, auditoriums, sporting or recreational facilities, cultural centers, residential dwelling, or for any other place where the parking spaces in said off-street parking areas for any vehicle owned or operated by a disabled veteran or handicapped person whose vehicle bears the distinguishing license plate authorized by Section Two of Chapter Ninety of the General Laws. Any person or body that has lawful control of a public or private way of improved or enclosed property used as off-street parking areas for businesses, shopping malls, theaters, auditoriums, sporting or recreational facilities, cultural centers, residential dwelling, or for any other place where the public has right of access as invitees or licensees shall be required to reserve parking spaces in said off-street parking areas for businesses, shopping malls, theaters, auditoriums, spor-

ting or recreational facilities, cultural centers, residential dwelling, or for any other place where the public has right of access as invitees or licensees shall be required to reserve parking spaces in said off-street parking areas for any vehicle owned or operated by a disabled veteran or handicapped person whose vehicle bears the distinguishing license plate authorized by Section Two of Chapter Ninety according to the following formula:

If the number of parking spaces in any such area is more than fifteen but not more than twenty-five, one parking space; more than twenty-five but not more than forty, two (2) parking spaces; more than forty but not more than one hundred, four percent of such spaces, but no less than three; more than one hundred but not more than two hundred, three percent of such spaces but not less than four; more than two hundred but not more than five hundred two percent of such spaces but not less than six; more than five hundred but not more than one thousand, one and one-half percent of such spaces, but not less than ten; more than one thousand but not more than two thousand, one percent of such spaces but not less than fifteen; more than two thousand but less than five thousand three fourths of one percent of such spaces but not less than twenty; and more than five thousand, one half of one percent of such spaces but not less than thirty.

Section 2. Sign Requirements for Handicapped Parking Spaces

Parking spaces designated as reserved under the provision of Section One of this article shall be identified by use of above grade signs with white lettering against a black background and shall bear the words, "Handicapped Parking: Special Plate Required. Unauthorized Vehicles may be removed at Owners Expense:" shall be as near as possible to a building entrance or walkway, shall be adjacent to curb ramps or other unobstructed methods permitting sidewalk access to a handicapped person; and shall be twelve feet wide or two eight-foot wide areas with four feet of cross hatch between them.

Section 3. Regulation of Unauthorized Vehicles in Handicapped Spaces

Unauthorized vehicles shall be prohibited within parking designated for use by disabled veterans or handicapped persons as unauthorized by Section One of these by-laws or in such a manner as to obstruct a curb ramp designated for use by handicapped persons as a means of egress to a street or public way.

Section 4. Penalty

The penalty for violation of this by-law is twenty-five dollars.

On Motion of Elizabeth Nashawaty, RTM, PCT 4,

It was Moved and Seconded:

To Table Article 18 to a later time in this Annual to substitute and delineate wordage which is redundant in present handicap regulations.

That this meeting be adjourned to Monday, October 29, 1984 in the Eleanor N. Johnson Middle School at 7:30 PM. The Moderator so declared at 10:50 PM.

Louis E. Hoegler
Town Clerk

**COMMONWEALTH OF MASSACHUSETTS
TOWN OF WALPOLE
ANNUAL TOWN MEETING
OCTOBER 29, 1984**

Norfolk, ss.

Pursuant to the foregoing adjournment of October 24, 1984, the Town Meeting was called to order at 7:30 PM by Moderator Robert B. Boyd. All rules and regulations concerning the call of an adjourned town meeting were fulfilled and a quorum was present.

The Assembly Pledged Allegiance to the Flag.

The following Tellers were appointed: Roy Fisher and George Seavey.

ARTICLE 19

On Motion of the Finance Committee,
It was Moved, Seconded and
VOTED:

That the Town accept Chapter 148, Section 26G, The Installation of Automatic Sprinkler Systems, which provides as follows:

Section 26G. In any city or town which accepts the provisions of this section, every building or addition of more than seven thousand five hundred gross square feet in floor area shall be protected throughout with an adequate system of automatic sprinklers in accordance with the provision of the state building code. No such sprinkler system shall be required unless sufficient water and water pressure exist. For purposes of this section, the gross square feet of a building or addition shall include the sum total of the floor areas for all floor levels, basements and sub-basements, measured from outside walls, irrespective of the existence of interior fire resistive walls, floors and ceilings. In such buildings or additions, or in certain areas of such buildings or additions, where the discharge of water would be an actual danger in the event of fire, the head of the fire department shall permit the installation of such other fire suppressant systems as are prescribed by the state building code in lieu of automatic sprinklers. Automatic suppressant or sprinkler systems shall not be required in rooms or areas of a telephone central office equipment building when such rooms or areas are protected with an automatic fire alarm system. Sprinkler systems shall not be required in a one story building having a fire resistance rating as prescribed in the state building code that is used solely for offices provided the building is protected by an automatic fire alarm system. This section shall not apply to buildings or additions used for residential purposes. The head of the Fire Department shall enforce the provisions of this section.

This act shall apply to construction of buildings or additions or major alterations commenced after November 1, 1984.

ARTICLE 20

It was Moved, Seconded and
VOTED:

That the Town take NO ACTION.

It was Moved, Seconded and
VOTED:

To adjourn until Monday, November 5, if the business of the Town Meeting is not completed tonight.

ARTICLE 2

The James McNerney, III...Memorial Resolution

Whereas, this resolution is being offered in the memory of James McNerney, III, late of Walpole, who lost his life in a tragic fire at his home on 15, July, 1984 and whereas the Fire Chief of the Town of Walpole and other Fire Officials of this and other departments have concurred the life of this 20 year old Air Force Serviceman and a citizen of Walpole, might possibly have been saved if an alarm box in the area had not been removed previously along with approximately eighty other boxes in the Town of Walpole.

Be it resolved therefore, the Board of Selectmen, the Finance Committee and the Town Meeting Members be alerted hereby of the anxiety of many citizens of the Town who are requesting these fire alarm boxes be restored to their proper place, with but few exceptions. The sponsors of this resolution strongly urge

than an article be prepared for inclusion on the agenda of the next official town meeting assembly, special or otherwise, said article to specifically call for the restoration of said alarm boxes at the earliest date possible. A survey conducted within the last two weeks, of some one dozen fire departments, including the City of Quincy, has revealedeach and every department concurs as to the wisdom of maintaining a fire alarm box system, notwithstanding they have in varying degrees, the age old problem of false alarms. Many towns in order to reduce the false alarm problem conduct regular fire prevention programs within the school system and which they claim does reduce the problem to a marked degree. One fire chief in a nearby town remarked that the worth of Walpole's fire alarm system including the alarm boxes which are currently stored...to be in excess of a half million dollars.

Concluding, we ask that this resolution be adopted at this semi-annual Town Meeting of the Town of Walpole and that a copy of same be forwarded to the family of the late James McInerney, III.

Signed: / Robert I. Stewart
Anthony J. Bruno
and 150 Others

ARTICLE 23

On Motion of the Finance Committee,
It was Moved and Seconded:

That the Town delete Article 24 of the Town's By-Laws and adopt the following Wetlands Protection By-Law:

Section 1. The purpose of this by-law is to protect the wetlands of the Town of Walpole by controlling activities deemed to have a significant effect upon wetland values, including but not limited to the following: public or private water supply, ground-water, flood control, erosion control, prevention of storm damage, prevention of water pollution, fisheries, shellfish, wildlife, and recreation. No person shall remove, fill dredge, or alter any bank fresh water wetland, flat, marsh, meadow, bog, swamp, or land bordering on any estuary, creek, river, stream, pond or lake, or within 100 feet or any of the aforesaid areas or any land under said waters or any land subject to flooding, other than in the course of maintaining, repairing or replacing, but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public and used to provide electric, gas, water, telephone, telegraph and other telecommunication communication services without written notice of his intention so to remove, fill, dredge, or alter and without receiving and complying with an Order of Conditions issued by the Walpole Conservation Commission (hereinafter "Commission") and provided all appeal periods have elapsed. Such notice shall be sent by certified mail to the Commission, including such plans as may be necessary to describe such proposed activity and its effect on the environment. The same notice, plans, and specification required to be filed by an applicant under Massachusetts General Law, Chapter 131, Section 40 (hereinafter "Chapter 131, Section 40"), will be accepted as fulfilling the requirements of this by-law. The said Commission in its discretion may hear any oral presentation under this bylaw at the same public hearing required to be held under the provisions of Chapter 131, Section 40, and in the regulations promulgated thereunder which became effective 1 April 1983 (hereinafter 131/40 Regulations) are hereby made a part of this bylaw except as otherwise provided herein:

Section 2. The Term "person" as used in this by-law shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof, administrative agency, public or quasi-public corporation or body or any other legal entity or its legal representative, agents or assigns.

Section 3. An applicant for a hearing under Chapter 131, Section 40 shall at his expense give written notice by certified mail to any abutter and to any landowner within 300 feet of the site of intent to alter site subject to the Inland Wetland Act or take any other action relative thereto. Evidence of above by copies of return receipts must be presented to the Conservation Commission prior to the hearing date in accordance with a certified abutter's list from the Assessor's office.

Section 4. The Commission shall make a determination as to whether or not this bylaw applies to a specific situation prior to the filing of a written notice of intent under the provisions hereof within 21 days of the receipt of a written request for Determination of Applicability. Said request shall be in the same format as Form 1 of the 131/40 regulations. The Commission, its agents, officers and employees may enter upon the land upon which the proposed work is to be done in response to a request for a prior determination or for the purpose of carrying out its duties under this bylaw and may make or cause to be made such examination or survey as deemed necessary by the Commission.

Section 5. The Commission is empowered to deny permission for any removal, dredging, filling or altering of lands described in Section 1 of this bylaw, if in its judgment, the proposed activity cannot be conditioned so as to preserve and protect the environmental values enumerated in said Section 1.

Section 6. The Commission may, as an alternative to a denial, impose conditions as it deems necessary to contribute to the protection and preservation of subject lands in accordance with the purposes of this bylaw. Any Order of Conditions issued under this bylaw may be identical to any such order issued by the Commission under the provisions of Chapter 131, Section 40. Time frames and procedures as set forth in Chapter 131, Section 40 and 131/40 Regulations are hereby made a part of this bylaw insofar as applicable and consistent with its provisions.

Section 7. The notice required by the first paragraph of this bylaw shall not apply to emergency projects necessary for the protection of the health or safety of the citizens of Walpole and to be performed or ordered to be performed by an administrative agency of the Commonwealth or by the Town. Emergency projects shall mean any projects certified to be an emergency by the Commissioner of Natural Resources or Department of Natural Resources and the Commission if this bylaw and Chapter 131, Section 40 are both applicable or by the Commission if only this bylaw is applicable. In no case shall any removal filling, dredging or alteration authorized by such certification extend beyond the time necessary to abate the emergency.

Section 8. The Commission may require as a permit condition that the performance and observance of other conditions be secured by one or both of the following methods:

- a) By a financial guarantee in any amount determined by the Commission to be sufficient and payable to the Town of Walpole, upon default; such guarantee shall be released upon issuance of a Certificate of Compliance.
- b) By a conservation restriction, easement or other covenant running with the land, executed and properly recorded in the Norfolk County Registry of Deeds (or filed with the Norfolk District of Land Court), in the case of registered land.

Section 9. No work allowed by an order of conditions shall be undertaken until all appeal periods required by law have expired and evidence of the order having been recorded at the Registry of Deeds by the applicant has been presented to the Commission.

Section 10. This bylaw may be enforced pursuant to Massachusetts General Laws Chapter 40, Section 21D, by a Town police officer or other officer having police powers. Upon request of the Commission, the Board of Selectmen and Town Counsel shall take such legal action as may be necessary to enforce this by-law and permits issued pursuant to it. Any person who violates any provision of this bylaw or of any condition or a permit issued pursuant to it may be punished by a fine of not more than \$300. Each day or portion thereof during which a violation continues shall constitute a separate offense; if more than one, each condition violated shall constitute a separate offense.

On Substitute Motion of James D. O'Brien, RTM, Pct 5,

It was Moved and Seconded:

That Section 11. of the proposed amended by-law submitted by the Conservation Commission be included in the amended bylaw. Said section reads as follows: Section 11. After due notice and public hearing the commission may promulgate rules and regulations to effectuate the purpose of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.
